Chapter 4: Learning Strategies

1. The Human Nutrition & Dietetics program at NSHS emphasizes active, applied, and progressive learning. Students engage in both theoretical and hands-on strategies designed to build a solid scientific foundation while developing real-world competencies essential for professional practice.

2. **Theoretical Learning Strategies**

   a. **Group Interactive Sessions (LGIS).** An interactive teaching strategy that incorporates visuals, case-based examples, class-based activities, and digital response tools to deepen understanding of the topic and to gain a good experience for enhancing communication as well as field-related skills. Sessions may include group activities on dietary assessment and nutrient calculations, group and individual interviews, and counselling sessions. This will enhance critical thinking and encourage class-wide participation.

   b. **Case-Based Learning (CBL).** A structured, student-centered strategy where learners analyze realistic nutrition cases such as chronic disease diet planning or community malnutrition assessments, as well as improve client/patient dealing skills. Case scenarios are based on real datasets of patients and field experiences through hospital visits. This strategy sharpens analytical thinking and enhances evidence-based decision-making.

   c. **Flipped and Blended Learning.** Students are given access to core e-modules to strengthen their grip on a particular topic. They are also provided with the course material beforehand so they can go through the topic before coming to the relevant class for better understanding. In-class time is reserved for practical application—such as energy requirement calculations, menu planning, or client role-play scenarios. This model encourages self-paced learning and improves concept retention.

   d. **Student Discussion groups.** Small student-led groups analyse current research papers related to nutrition and public health. Sessions are aligned with coursework and aim to develop critical appraisal, presentation skills, and early exposure to scientific inquiry. It equips them with the ability to analyse and upgrade their nutritional assessment techniques and knowledge.

3. **Practical Learning Strategies**

   a. **Nutrition Skills Lab.** Students participate in structured practical sessions covering anthropometric measurements (BMI, MUAC, skinfolds), diet recall analysis, and menu modification using case files. These sessions bridge theory with clinical and public health nutrition practice.

   b. **Role Play based Learning.** Mock client counselling scenarios are conducted using peer volunteers or role-play. Students practice history taking, communication, and behaviour change techniques. This strategy enhances clinical confidence in a supportive, simulated environment.

   c. **Community Nutrition Fieldwork.** Students engage in supervised field activities such as nutritional assessments within NUST as well as outside NUST by arranging nutritional camps, maternal nutrition awareness days, or community diet surveys. These experiences promote public health

awareness and cultural competence in delivering nutrition interventions.

d. **Professional Skills Workshops.** Short, focused workshops conducted throughout the academic year cover:

(1) Research Planning and methodology

(2) Portion size estimation, Label reading and consumer awareness, Recipe standardization and food costing

4. These sessions aim to build practical competencies that align with the scope of professional practice.

NUST
Defining futures

2. **Foundations of Effective Learning**
    a. Use tools like mind maps, clinical charts, and visual summaries (e.g., WHO guidelines).
    b. Start from broader concepts (e.g., Malnutrition) and progressively narrow to detailed topics (e.g., Protein-Energy Malnutrition protocols).
    c. Link theory to practical settings using analogies, real-life case examples, or simulation-based reflection.

3. **Maximizing Lecture Engagement**
    a. **Before Lecture**: Skim study guides, learn basic definitions (e.g., PEM, MNT)
    b. **During Lecture**: Focus on concepts, not transcription. Highlight unclear points.
    c. **After Lecture**: Revise within 48 hours. Cross-reference notes with textbooks or lectures.

4. **Optimizing Study Environment**

Chapter 7: Assessments

1. Assessment is a fundamental and integral component of the educational process, carrying significance for students, faculty, and the institution alike. For the institution, assessments provide an essential basis for program evaluation, offering valuable insights that inform curriculum development and continuous improvement. Assessments are vital for university students as they reveal knowledge gaps, provide learning motivation, and allow for self-improvement, while for faculty, they are crucial for understanding student comprehension, refining teaching methods and curriculum, and fulfilling institutional accountability and quality assurance mandates.

2. In BS (Human Nutrition and Dietetics) program, a balanced combination of traditional and alternative assessment methods is employed, including formative assessments (class quizzes, assignments, etc.) and summative assessments (midterm exams, final exams, projects, term papers, etc.). While tests and individual exams are still important, the overall assessment looks at different types of evidence gathered over time. This approach ensures a holistic view of each student's progress and competence across the entire educational experience.

3. Thus, BS in Human Nutrition and Dietetics students are assessed through various methods, including midterm and final exams, projects, viva voce, presentations, assignments, class or hybrid quizzes, and laboratory work. The assessment plans are provided in the course outlines and are accessible to students via the LMS (Qalam). Each instructor has the flexibility to design their course assessments, deciding the number of quizzes and assignments and choosing the most appropriate formats (subjective or objective) based on the course's nature. Additionally, the distribution of marks for each course is shared on Qalam to ensure transparency.

4. Overall performance is monitored collaboratively by the Course Instructor, Head of Department (HOD), and Student Advisor to maintain academic standards and provide student support.

5. **Examinations & Other Semester Requirements.** The following may be scheduled as per NUST policy during a semester of studies for grading:

a. **Minor Test (Quiz)**. Several unannounced/announced quiz tests are conducted frequently in each course at irregular intervals (normally 2-3 per credit hour) throughout the semester.

b. **Major Tests, Mid-Semester Examination/One-Hour Test (OHT)**. Mid-semester exam is a 2–3 hour test conducted at mid-semester or a number of OHTs (one-hour duration), conducted (normally one per credit hour) in each course at regular intervals with due notice of at least two days.

c. **End Semester Examination (ESE)**. The last comprehensive examination of approximately three hours duration is given in each course on its completion.

d. **Class Assignment**. A task, relevant to a course of study, is assigned by the concerned faculty to substantiate the course contents. The assignment may or may not be graded.

e. **Practical/Lab Test**. These tests include all such examinations/evaluations to ascertain the level of competency of the practical application of knowledge acquired.

f. **Project**. Project is a research work aimed at testing the ability of a student to translate the theoretical knowledge acquired during a course of study into practical use. Projects are usually assigned as part of coursework to individuals or groups of students and each student is required to present the project work.

g. **Oral Presentation**. Students are required to make oral presentations during the semesters as part of courses specially configured to develop their soft skills.

6. **Weightage of Summative Assessments**

Nature of Examination	Duration	Frequency	Weighting (%age)

while meeting and interacting with colleagues/faculty and staff of the University. This is an important aspect of Islamic etiquette and obligations and should also be reflected in our lives.

23. **Safe Driving**. Students are advised to avoid reckless driving on the campus and should abide by the laid down speed limits and sign postings to avoid penalties.

24. **Redressal of Student Grievance**. NUST as an internationally reputable and progressive university continuously endeavours to enhance its exceptional quality in all dimensions. It promotes an environment conducive to the open exchange of ideas. Besides imparting academic knowledge of specific disciplines to its students, it endeavours to instill moral and ethical values along with the soft skills necessary for success in the workplace. NUST is aware that students occasionally face certain issues during their course of study. To be an effective professional, every student needs to be conversant with the policies and procedures for the harmonious resolution of their grievances. This policy document on student grievances details the course of action to be undertaken for amicably and efficiently addressing individual issues of the student body. Additionally, the NUST Student Forum has been entrusted to address collective concerns of the students, for which a separate policy document is formulated and may be consulted.

a. **The Students Grievance Committee (SGC)**

(1) **Aim.** The Grievance Committee is responsible for addressing the individual student's unresolved complaints.

(2) **Scope**

(a) Academic and administrative matters

(b) Misconduct of any individual in the University

b. **Initial Steps before approaching SGC.** Every student complaint should be resolved through the normal reporting channels. The following paragraphs provide the necessary guidelines to the student for reporting their complaints:

(1) **Step 1: Who should you go to?**

a. **Faculty/ Officer**. If the complaint concerns a certain action or inaction by the faculty/officer on any academic (e.g., course progress, learning difficulties, etc.) or administrative (e.g., class/exam schedules, hostel, finance, etc.) issues, the student should first approach the concerned faculty or officer (DD Adm, DCE, Accounts Officer, Programme Coord, ILO, Trg Coord, SO NUST, HoD, etc.).

b. **Student Advisor**. Students may also approach their respective Student Advisor/tutor for the above complaints alongwith issues related to academic deficiency/medical conditions/personal and administrative matters (e.g., hostel, transportation, etc.). Depending on the urgency of the matter, the student can approach their Advisor anytime besides the scheduled meetings.

c. **Female Faculty Focal Person (F^3H).** To report a sensitive

matter, a female student may directly approach the concerned Female Faculty Focal Person at the School.

(2) **Step 2: Second Level of Reporting**

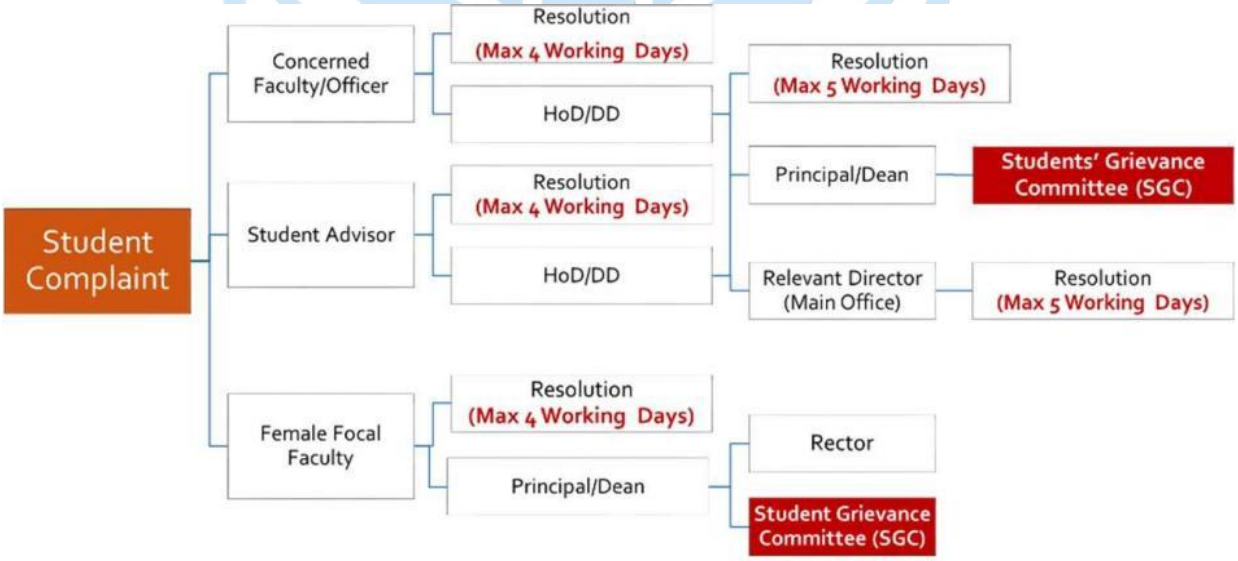

(a) **Head of Department (HoD)/ Programme.** If the complaint is not resolved at the faculty/officer level, the student may report the matter to his/her HoD/Programme Head. If the issue is outside the school's domain, the HoD/Programme Head will report the matter to the relevant Director in the Main Office.

(3) **Step 3: Third Level of Reporting**

(a) If the complaint is not resolved at step 1 and/ or step 2, the student may report the matter to SGC.

(b) The following illustration outlines the above-stated process along with the expected resolution/ wait time at each step.

FIGURE 1: COMPLAINT PROCESS

c. **SGC: Filing Process and Procedure.** If the individual's complaint remains unresolved till the expiry of the stipulated timeframe in Figure 1, the student may approach the Student Grievance Committee (SGC) through a written application/email to the Head of SGC. In exceptional cases, the student can also approach the committee directly. The responsibility for the decision to directly approach the SGC rests with the student. Similarly, a student can withdraw a grievance at any stage of the process by sending a written request to the Head of the SGC. Once withdrawn, the grievance will not be reinstituted unless a change in the circumstances has occurred.

Defining futures

d. **Composition of SGC**

(1) Head (1x Senior Faculty)

(2) 2 x Faculty Members

However, under exceptional circumstances, this time period may be lengthened. The grievance committee must ensure the confidentiality of its proceedings and inquiry. The decision and action taken can only be shared with the concerned student and the concerned faculty/officer, as and when required. In case the student is not satisfied with the decision, he/she may take the matter to Pro-Rector (Acad).
