1 HIGHLIGHTS

Saluting the custodians of peace and progress

NUST showcases R&D at *Marka-e-Haq* Defence & Cultural Exhibition

Enduring Legacy. Unflinching Resolve

In a resounding display of national pride and scientific prowess, NUST stood tall alongside NUTECH as the only two universities selected to showcase their innovations at *Marka-e-Haq* in Shakarparian Parade Ground. Organised as part of Pakistan's 78th Independence Day celebrations, *Marka-e-Haq* symbolised the nation's strength and resilience, with NUST presenting 30 high-tech, indigenously developed technology solutions by its students, researchers and scientists, all aimed at strengthening Pakistan's defence technologies. Lauding the effort, Rector NUST urged faculty, students and researchers to continue developing technologies that translate into tangible solutions for the country's progress and security.

The exhibition drew an estimated 50,000+ visitors, including the Chief Guest, DG PS GHQ, senior military leadership from all three services, government officials, ministers and secretaries, academics from various institutions and the general public from across Islamabad, Rawalpindi and beyond. The NUST pavilion remained one of the most visited and engaging stalls throughout the day.

NUST's participation at *Marka-e-Haq* reaffirmed the university's longstanding commitment to nation-building. With over three decades of contributions to science, technology and defence, NUST has consistently stood at the intersection of academia and national service. The Independence Day showcase served not only as recognition of past achievements but as a call to action for the future. By fostering innovation ecosystems, encouraging research collaboration and empowering young minds, NUST envisions a Pakistan that is self-reliant, secure and prosperous.

NUST salutes the spirit of Independence by building technologies that safeguard our tomorrow

ہم تابہ ابد سعی و تغیر کے ولی ہیں

Envisioning a Pakistan that is self-reliant, secure and prosperous

United under the green and white of Pakistan and the blue of NUST, the theme embodied knowledge in action and education in the service of the nation.

The spirit of NUST was branded on the walls of the NUST pavilion echoing: **INSPIRE, IMPACT, RISE, RESOLVE, INNOVATE, EMPOWER, TRANSFORM**, each reflecting its role in shaping leaders, advancing innovation, and driving national progress.

"We innovate not for trophies, but for Pakistan." - NUST Formula Racing Team

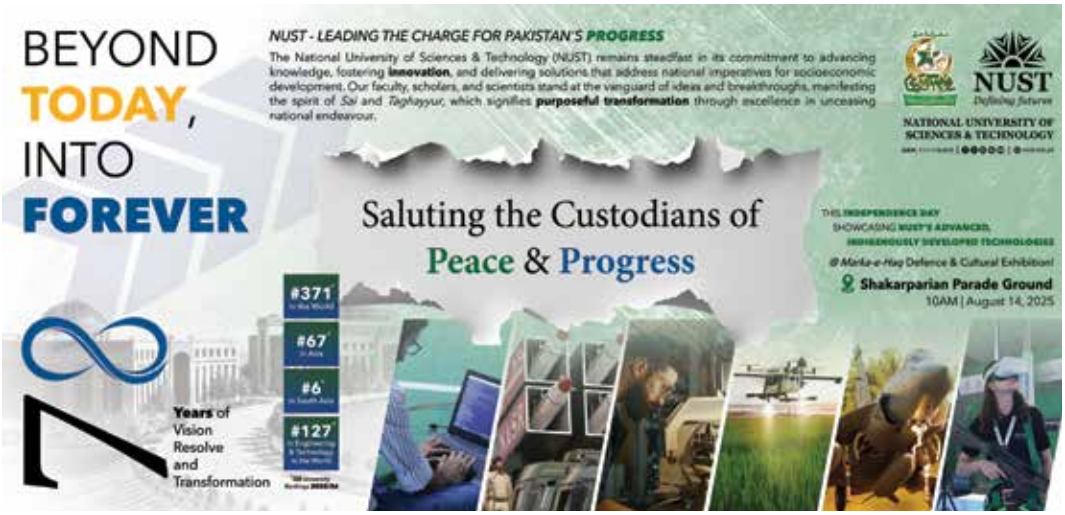

Showcase of Innovative Technologies

Marka-e-Haq was more than an exhibition; it was a narrative of Pakistan's resilience. Symbolising unity, victory and determination, the event marked the country's 78th Independence Day with a powerful showcase of innovation and solidarity with the Armed Forces.

NUST's pavilion embodied this spirit, demonstrating how academia is contributing directly to the nation's strategic strength. Each project was indigenously conceptualised, designed and developed, showcasing not only the technical capabilities of Pakistan's youth but also their unflinching commitment to serve the motherland.

30+
Technologies on display

From Labs to Frontlines of Innovation

Shaping Innovation Into National Impact

Showcase of over 30 cutting-edge projects, developed by students, faculty, and research centres across the university. Key focus areas included:

- Healthcare
- Def Tech
- Agri Tech
- Artificial Intelligence
- Smart Tech
- Energy Tech

20,000+
Footfall at NUST Pavilion

NUST joins SCO University Alliance for Digital Economy Education

Rector National University of Sciences and Technology (NUST), Dr Muhammad Zahid Latif, participated in the signing of the Shanghai Cooperation Organisation University Alliance for Digital Economy Education on July 11, 2025, at Nankai University, China. The Alliance brought together leading universities from China, Kazakhstan, Kyrgyzstan and Tajikistan, to advance collaborative digital economy education across Shanghai Cooperation Organisation member states. Its focus areas include Artificial Intelligence, Big Data and cross-border electronic commerce. On the same day, Dr Muhammad Zahid Latif delivered a keynote address at the SCO Digital Economy Forum, where he emphasised on urgency of equipping youth with relevant digital skills amid growing participation in the gig economy.

NUST partners with Pak's High Commission in UK to boost innovation, academic exchange

High Commissioner Dr Mohammad Faisal met Dr Muhammad Zahid Latif, Rector, National University of Sciences and Technology, at the Pakistan High Commission, London. The discussion focused on enhancing research, innovation and academic collaboration with United Kingdom universities, particularly in Public Policy. The High Commissioner assured full facilitation in promoting institutional linkages and academic exchanges.

NUST hosts Italian Defence Studies delegation

NUST hosted a high-level delegation from the Centre for Higher Defence Studies (CASD), Italy, on October 9, 2025. Led by Lt Gen Stefano Mannino, President CASD/ SSUOS, the visit aimed at strengthening academic and research linkages between the two institutions. Pro-Rector Planning and Resources, Muhammad Arif Malik, welcomed the delegation and briefed them on NUST's academic profile. Discussions focused on collaboration and the development of a structured roadmap for long-term academic cooperation between Pakistan and Italy.

International Conference "Shaping a China-Pakistan Shared Destiny"

NUST Centre for International Peace and Stability (CIPS) held international conference on "Shaping a China-Pakistan Shared Destiny: The Roles of CPEC 2.0 and Academic Cooperation" on October 8, 2025.

The one-day event brought together policymakers, academics and industry leaders to discuss the transformative phase of CPEC, focusing on technology transfer, industrial cooperation and green energy.

Delegates emphasised that long-term partnership resilience relies not only on infrastructure but also on academic collaboration to build human capital, foster joint research, and deepen cultural understanding.

Prof. Zhang Jiegen, Director, Pakistan Study Centre, Fudan University, highlighted the importance of aligning academic and research capabilities with CPEC 2.0 to define a shared future. The conference will further strengthen Pak-China relations.

Leaders make a clarion call for inclusive multilateral world to bridge Global North-South divide

The NUST Institute of Policy Studies (NIPS) organised the Islamabad Symposium 2025, themed "Balancing Relationship Between Global North and Global South: Challenges and Opportunities" at the NUST main campus on Wednesday. Global leaders, diplomats, practitioners, academics, and members of the civil society attended the insightful session.

Dr Muhammad Zahid Latif, Rector NUST, welcomed the chief guest, Mr Khawaja Muhammad Asif, Federal Minister for Defence, along with members of the diplomatic corps and other participants. The Rector highlighted that the global order post World War II is majorly shaped by the Global North, which is increasingly unresponsive to the issues faced by the Global South that is home to 86 percent of the world's population. The Rector emphasised that against this backdrop, the Global South has opted for inclusive multilateralism and collective development and cooperation as a response to weaponised interdependence. Dr Zahid also underlined NUST's efforts and commitment to promoting actionable policy dialogue and contributing to local and global development via comprehensive research across multiple realms.

The opening session included a special video message by the Secretary-General of ASEAN, H.E. Dr Kao Kim Hourn. He appreciated NUST for organising the symposium, highlighting ASEAN's commitment to the promotion of diplomacy grounded in multilateral consensus, cooperation, and consultation. Dr Hourn reiterated the Vision-2045 by ASEAN, which is pivoted on the principles of inclusivity, peace, shared prosperity, and regional cooperation.

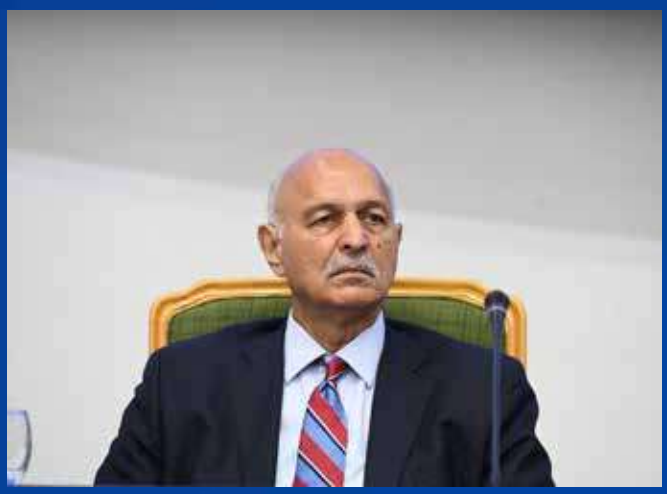

In his remarks, the chief guest commended NIPS for convening this timely discussion on these crucial contemporary challenges. He observed that from climate change to geopolitical tensions, the world is undergoing a massive flux of issues, and the burden of these overlapping crises is falling disproportionately on the developing nations. While highlighting the resolve and preparedness of the nation to thwart any external threat, the Minister reaffirmed the commitment of Pakistan in promoting global and regional peace, particularly with its neighbours. He also touched upon the current evolving environment at Pakistan's western border and expressed his resolve to defeat any aggressive designs by inimical forces. He urged the Pakistani youth to pursue excellence in innovation, discipline, and integrity in nation-building, and highlighted their role in the progress of Pakistan.

The symposium also featured two plenary sessions: one on "Evolving Geopolitics and Its Implications on the Changing Global Order," moderated by Ambassador Masood Khalid, and the second on "The New Geoeconomics: Rebalancing North-South Economic and Trade Relations," moderated by Mr Hamid Sharif, former Managing Director of the Asian Infrastructure Investment Bank (AIIB). Prominent amongst the speakers were Mr Mushahid Hussain Sayed, who noted that the changing regional and global (geopolitical) landscape offers a strategic space for Pakistan to leverage its potential; Professor Zhang Jiadong, Director of the Center for South Asian Studies, Fudan University who emphasised that evolving geopolitics presents both challenges and opportunities, and it is through inclusivity and equitable representation that the pressures of geopolitical considerations could be effectively alleviated; Ambassador Zamir Akram, Former Permanent Representative of Pakistan to the UN, remarked that restructuring of present multilateral structures, one that offers equitable representation to people of all communities, cultures, and countries, is necessary. Other speakers at the symposium included Russian Ambassador H.E Albert P Khorev, and Dr Bruno de Oliveira Cruz from Brazil's Institute for Applied Economic Research (IPEA)

In his remarks, Dr Ashfaque Hasan Khan, DG NIPS, traced the journey of unilateralism from the post-World War II era to early 2025, elucidating the shift from inclusion to contemporary fragmentation and chaos. He noted that the current wave of unilateralism is unique due to the rise of China, and the emergence of the BRICS and SCO.

The keynotes were followed by a comprehensive discussion covering matters, including Pakistan's role, shifting alliance patterns, and the inadequacy of current multilateral structures. The discussions also explored policy options for rebalancing global economic relations through structural reforms, equitable governance, and renewed North-South cooperation.

ISLAMABAD SYMPOSIUM
Balancing Relationship between Global North &
Global South: Challenges & Opportunities
October 15-16, 2025
HBL
Organized by NUST Institute of Policy Studies (IPS)

BOOK LAUNCH

PAKISTAN'S SEARCH FOR PEACE WITH AFGHANISTAN

STATECRAFT, POLICY AND STRATEGY

Meanwhile, the symposium witnessed the launch of the book titled "Pakistan's Search for Peace with Afghanistan: Statecraft, Policy, and Strategy," by Dr Muhammad Zahid Latif, Rector NUST.
The Defence Minister, Khawaja Muhammad Asif (NI), appreciated the author and congratulated him on his impeccable work and expertise on the subject. The Defence Minister noted that the book offers an original take on the current and future trajectory of Pakistan-Afghanistan relations, providing insightful pointers for peaceful coexistence of the two neighbours

NSTP, Dhahran Techno Valley (KSA) to strengthen innovation collaboration

National Science & Technology Park (NSTP) at NUST, has entered into a strategic partnership with Dhahran Techno Valley Holding Company (DTVC) at Kingdom of Saudi Arabia (KSA) through the signing of a Memorandum of Understanding (MoU) on January 14, 2026. The collaboration establishes a structured framework to accelerate innovation, strengthen academia industry linkages and expand cross-border opportunities for startups, researchers and entrepreneurs across both ecosystems. The MoU connects NSTP and Dhahran Techno Valley to fast-track research commercialisation and startup growth through joint acceleration programmes, industry linkages and co-investment pathways.

"This partnership reflects NSTP's commitment to connecting Pakistan's innovation talent with global platforms that can accelerate commercialisation and scale," said Engr Amer Sheikh, Director NSTP. "By aligning with Dhahran Techno Valley's deep industry proximity and venture-building capabilities, we aim to create tangible pathways for our startups and researchers to access markets, infrastructure, expertise and collaborative programmes."

"Dhahran Techno Valley reaffirms its commitment to accelerate the journey from lab to market by bridging world-class research with entrepreneurial spirit," said Mohammed Abusharifah, CEO of DTVC. " DTVC is one of KSA's flagship ecosystems for innovation in energy, sustainability, and beyond. Anchored by King Fahd University of Petroleum & Minerals (KFUPM) and supported by national champions such as Saudi Aramco and Sipchem; technology partners such as Baker Hughes, Yokogawa, Sinopec and Schneider Electric.

NUST, HBL to collaborate in Agri-Tech, Fin-Tech & AI

Rector NUST, Dr Muhammad Zahid Latif, welcomed a high-level delegation from Habib Bank Limited led by its President and CEO. The delegation visited the National Science and Technology Park (NSTP) and the National Centre of Artificial Intelligence (NCAI), exploring collaboration opportunities in Agritech, Fintech and Artificial Intelligence. Both sides reaffirmed their commitment to elevating a longstanding partnership into a strategic collaboration addressing Pakistan's technological and human capital needs.

NUST INSTITUTE OF POLICY STUDIES

Experts call for a whole-of-nation approach for countering India's pro-conflict proclivities

NUST Institute of Policy Studies (NIPS) and the NUST Center for Peace and Stability (CIPS) co-organised a high-level roundtable on "Indo-Pak Military Conflict: Implications, Challenges and Opportunities for Regional Stability". There was an expert consensus that rising instability, Indian aggression and moves to undermine the Indus Waters Treaty require stronger deterrence and active diplomatic and legal responses.

Ambassador Zamir Akram noted that although Pakistan's nuclear deterrence was sufficient to prevent a full-scale war, India's unregenerate belligerence was a standing threat to peace and stability in the region. He also called for a long-term diplomatic effort to counter India's 'new normal,' while developing a bilateral crisis management mechanism with India.

Dr Arshad Mahmood underscored the recent phase of transition in Indo-Pak relations, highlighting the Modi regime's ambitions for regional hegemony and warning about the emerging norm of false flag operations, while stressing the importance of a stronger economy and technological advancement.

Mr Ahmer Bilal Soofi discussed India's use of the term 'abeyance' regarding the Indus Waters Treaty and emphasised that India's decision to put the treaty in abeyance, followed by an attack, are clear violations of international law that need to be widely highlighted, along with exploring strong legal responses.

CENTRE FOR INTERNATIONAL PEACE AND STABILITY

Senate body and NUST explore collaborative pathways for national growth

A delegation of the Senate Standing Committee on Science & Technology paid a visit to National University of Sciences & Technology (NUST) on Wednesday September 24, 2025. Led by the committee's Chairman Mr Kamil Ali Agha, the senators exchanged insights with NUST leadership on the university's knowledge ecosystem, initiatives and accomplishments. The meeting also focused on facilitating inter-ministerial coordination to address any challenges pertaining to infrastructure, human resource needs and sustainability to name a few. The senators also explored ways to further bolster public-private partnerships and the commercialisation of research and innovation emanating from the university.

Rector NUST Dr Muhammad Zahid Latif welcomed the esteemed delegation, and highlighted NUST's growing role in promoting research, innovation and technology development, thereby contributing to the knowledge economy of Pakistan.

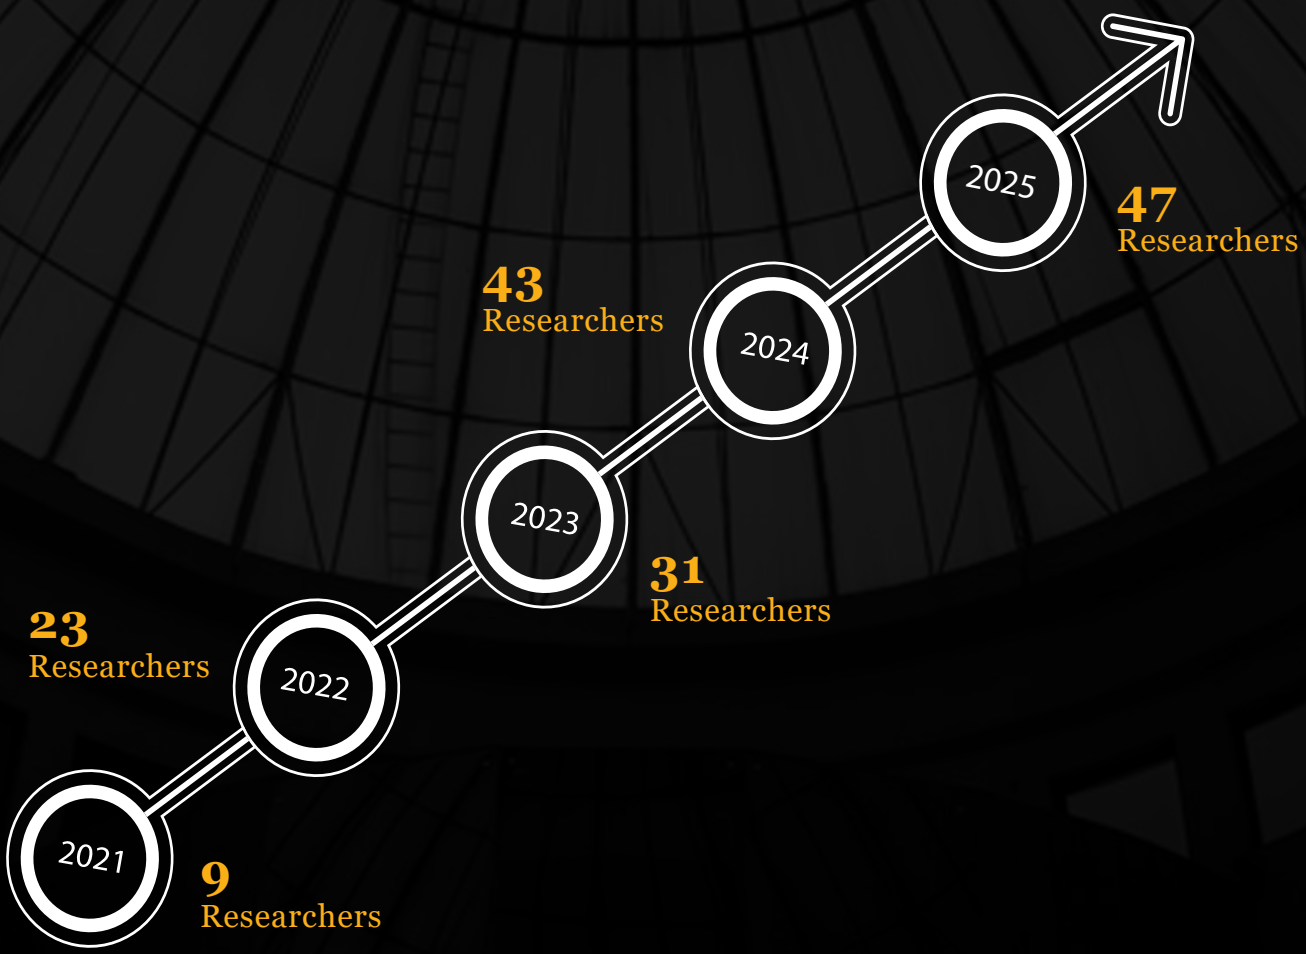

47 NUST scientists ranked among top 2% globally

A total of 47 researchers from NUST have been recognised among the world's top 2% in 2025, according to Stanford University and Elsevier rankings.

The number has steadily increased with 23 in 2022, 31 in 2023, 43 in 2024, and now 47 in 2025, reflecting NUST's robust research ecosystem. Notably, 26 researchers have appeared on the list consistently.

The 2025 rankings feature NUST scholars from 10 institutions across 15 disciplines, including AI, Signal Processing, Materials, Mechanical Engineering, Nanotechnology, Cyber Security, Computer Science, Biomedical, Physics, Mathematics and more.

Distinguished researchers include Dr Miraj Mustafa, Dr Irfan Ahmad Rana, Dr Mubasher Jamil, Dr Tayyaba Noor, Dr Muhammad Usman Akram, Dr Safia Akram, Dr Iftikhar Hussain Gul, Dr Rizwan Ul Haq, Dr Muhammad Bilal Khan Niazi, Dr Asif Hussain Khoja, Dr Muhammad Taqi Mehran, Dr Adeel Waqas, Dr Shahid Ali Khan, Dr Khursheed Muhammad, Dr Zaib Jahan, Dr Ghulam Ali, Dr Faisal Shafait, Dr Hassan Ali Khattak and others.

Dire need of policy framework to support Pakistan's solar manufacturing ecosystem

The US-Pakistan Centre for Advanced Studies in Energy (USPCAS-E) at NUST hosted a consultative session to present its latest study, "Crafting a Sustainable Business Model to Drive Indigenous Solar PV Panels Manufacturing in Pakistan" on July 22, 2025.

The event brought together leading academics, industry professionals and policymakers to discuss pathways for advancing local solar manufacturing. Dr Adeel Waqas highlighted the urgency of developing a robust local manufacturing base for solar panels and allied equipment to meet Pakistan's growing solar energy needs and reduce dependence on imports.

The study, presented by Dr Nadia Shahzad, provides a comprehensive roadmap for establishing solar PV panel assembly in Pakistan. The report proposes a business model for 100 MW PV Panel Manufacturing Plant with a plan for gradual increase of capacity up to 1.0 GW based on assumptions backed by facility visits, ensuring its practicality and relevance to local industry dynamics.

Speakers regarded the study as a significant first step toward the indigenisation of solar technologies in Pakistan. Mr. Maud Osman Mohammad agreed with the emphasis on developing a strong domestic market as a foundation for broader industrial growth. Mr Muhammad Basit Ghauri pointed to a surge in battery imports, over PKR 90 billion between March and May 2025, and called for policy for data transparency and strategic deployment planning. Dr Omais Abdur Rehman highlighted shifting global manufacturing trends and recommended engaging the Engineering Development Board (EDB) in policymaking.

Dr Noor ul Huda Khan emphasised aligning with next-generation solar technologies like Perovskite solar modules. Mr Sohaib Asif Sipra noted that around 50% of Pakistan's solar sector remains informal and called for a dedicated think tank to lead structured progress in local inverter and battery manufacturing. Mr Mansoor Jamil Khan stressed the need for proper safety regulations for lithium-ion systems, while Mr. M. Umer Khan urged policy support in the form of import duties and direct subsidies to stimulate local production. Representing the Pakistan Solar Association, Mr Hasnat Khan stressed the importance of quality assurance, system audits, and structural safety in solar installations, in this regard, NUST also offered its facilities to be utilised.

The event concluded with Dr. Majid Ali reaffirming USPCAS-E's commitment to fostering indigenous solar manufacturing through continued collaboration.

JINNAH SCHOOL OF PUBLIC POLICY & LEADERSHIP

NUST hosts 53rd Common Training Programme for CSA

The Iqbal Executive Development Centre (IEDC), Jinnah School of Public Policy & Leadership (JSPPL-NUST), commenced a two-day executive training programme on January 20, 2026 ,for 136 probationary officers of the 53rd Common Training Programme (CTP) of Civil Services Academy (CSA), titled "21st Century Leadership Transformation for the Digital Era."

The inaugural ceremony was graced by General (Retd) Zubair Mahmood Hayat and Rector NUST Dr Muhammad Zahid Latif. The Rector emphasised transformational public leadership, highlighting integrity, strategic foresight, ethical courage and citizen-centric service delivery enabled by digital transformation.

The former Chairman Joint Chiefs of Staff Committee (CJCSC) delivered a talk on "Going Beyond – Leadership and Governance," focusing on reflective thinking, strategic intelligence, and leadership beyond conventional administrative roles. The programme covered key themes including digital Economy, Digital Governance, leadership and societal resilience, reinforcing NUST's commitment to developing future-ready public sector leaders.

SCHOOL OF CHEMICAL & MATERIALS ENGINEERING

NUST scores historic table tennis win at World University Games

A historic milestone for Pakistan at the World University Games in Germany, as NUST student Taimour Khan registered a commanding 3-0 victory over Cyprus in table tennis, securing Pakistan's qualification for the next round. This marks the country's first-ever win in this category at the games.

A student of NUST School of Chemical & Materials Engineering (SCME) and a member of the Higher Education Commission (HEC) Pakistan Sports Contingent, Taimour delivered a relentless performance. His game featured powerful smashes, sharp loops, precise chops, and swift flicks. His exceptional performance secured his advancement to the next stage of the tournament.

Pakistan's contingent comprising 40 athletes participated in seven different sports.

NIMUN 2026 accentuates global peace and cooperation

The four-day NUST International Model United Nations (NIMUN) 2026 was held at the university main campus. Hosted by the NUST Business School (NBS), the opening ceremony welcomed distinguished guests and international delegations from Uzbekistan, Syria and Afghanistan, setting the tone for dialogue grounded in the spirit of the United Nations.

Rector NUST, Dr Muhammad Zahid Latif reflected on the evolution of the United Nations and urged delegates to recognise their role in shaping a future defined by peace, cooperation, and shared responsibility.

Chief Guest Ms Mio Sato, United Nations Resident Coordinator (Acting), emphasised that effective diplomacy lies in listening to diverse perspectives and translating them into meaningful action.

Dr Naukhez Sarwar, Dean and Principal NBS, highlighted the decade-long legacy of NIMUN in nurturing young diplomats and future leaders.

NIMUN 2026 has set the stage for four days of rigorous debate, diplomacy, and cross-cultural engagement.

MAIN OFFICE

NUST expands academic ties with Romania

H.E. Dan Stoenescu, Ambassador of Romania to Pakistan, paid a courtesy call on Rector NUST, Dr Muhammad Zahid Latif. The meeting focused on identifying areas of mutual interest in higher education, research and innovation. The Rector appreciated the Ambassador's visit and highlighted NUST's vision of expanding global partnerships that foster knowledge exchange and collaborative growth.

NUST BALOCHISTAN CAMPUS

NBC delegation meets Chief Minister Balochistan

The Chief Minister of Balochistan, Mir Sarfraz Bugti, met a delegation from NUST Balochistan Campus, Quetta, led by the Dean and Director, Dr. Mughees Aslam on November 25, 2025, . During the meeting, the Chief Minister underscored the pivotal role of youth in the progress of Pakistan. He encouraged students to excel in seeking education, and urged them to move forward with vision, discipline and strong moral character.

The Chief Minister further reaffirmed the provincial government's commitment to supporting educational initiatives and nurturing young talent. He also assured the delegation of his visit to the NUST Balochistan Campus in the near future to engage with students and review ongoing academic and developmental initiatives

NIPIS 2025

NUST INTERNSHIP PROGRAMME FOR INTERNATIONAL STUDENTS 2025

NUST hosts **33 bright students** from across **10 countries** for an enriching & immersive four-week experience

NUST LAW SCHOOL

NUST makes history at FDI Arbitration Moot

The National University of Sciences and Technology team won the Middle East Regional rounds of the Foreign Direct Investment (FDI) Arbitration Moot Court Competition, becoming the first-ever team from Pakistan to qualify for the Global rounds in Boston, United States of America. This landmark achievement marks a historic breakthrough for both NUST and Pakistan at the prestigious FDI Moot.

NUST SCHOOL OF SOCIAL SCIENCES

NUST observes World Population Day

The Centre of Excellence on Population and Wellbeing Studies (CePwS) at S3H, NUST, observed World Population Day 2025, in collaboration with the United Nations Population Fund (UNFPA). The commemoration included a panel discussion and an essay-writing competition on the theme of "Empowering young people to create the families they want in a fair and hopeful world". The event brought together experts from academia, government, NGOs and INGOs.

Ms Latika Maskey Pradhan discussed the challenges that Pakistan is facing in terms of balancing population, bringing child marriage and women empowerment into limelight and emphasising on policy solutions.

2 RESEARCH & INNOVATION

Reimagining Energy Solutions for Balochistan

Dr Neelma Naz of the NUST School of Electrical Engineering & Computer Science (SEECS) is bridging the communication gaps for individuals with hearing and speech impairments. Her research introduces the Multi-Scale Efficient Graph Convolution Network (MSE-GCN), a cutting-edge AI model designed to translate sign language into text in real-time. Unlike traditional methods, MSE-GCN employs multi-scale separable convolutions and a multi-branch network with early fusion to capture both fine-grained and broader motion patterns. Additionally, the Spatial-Temporal Joint-Part Attention (ST-JPA) module focuses on the most relevant body parts and critical joints in the sign sequence, frame by frame, enhancing the model's ability to distinguish subtle variations in complex signs. This approach addresses the inherent challenges in Sign Language Recognition (SLR), such as visually similar signs and the need for real-time processing. The MSE-GCN model offers a lightweight and efficient solution, making it suitable for deployment on edge devices. This model paves the way for more accessible and inclusive communication technologies.

DxVision Wins HealthTech Award at Ignite AI Wrapper 2025

DxVision, an AI-driven HealthTech platform, has secured the HealthTech title at Ignite's AI Wrapper Competition 2025, standing out among more than 1,700 submissions nationwide.

Powered by generative AI and deep learning, DxVision transforms histopathology workflows through digital staining and automated tissue analysis. This reduces processing time from hours to minutes, while minimising chemical use.

The project is a collaboration between BIOMISA Lab at NUST (Prof Dr Usman Akram), RISETech (Mr Faizan Amin), and NIDI Skin, USA (Dr Babar Rao). Doctoral researchers Dr Asad Mansoor Khan, Dr Anum Abdul Salam and Dr Muhammad Zeeshan Asif played a key role in its development, with Dr Asad and Dr Anum leading the winning pitches at regional and national levels.

DRONE TECHX NUST

THE AERIAL TECH EXPO

Bringing together Pakistan's young innovators, industry leaders, and drone technology enthusiasts for a full day of competition, collaboration, and cutting-edge innovation, the two-day Drone Techx NUST, the Aerial Tech Expo, commenced at the National University of Sciences & Technology (NUST) on Wednesday December 3, 2025. The first day of the event was dedicated to Aerothon, Pakistan's premier drone innovation competition.

The Drone Ecosystem Module drew participation from an overwhelming number of student teams and industry organizations, demonstrating the rapid growth of Pakistan's drone ecosystem and the increasing national focus on autonomous technologies. The Drone Racing Module also generated great interest, featuring several competing teams from schools, universities, and independent hobbyists. The segment blended competition and technical expertise, helping to build a robust pipeline of skilled drone operators and engineers while showcasing sport-driven innovation.

While inaugurating, NUST Pro-Rector Research, Innovation & Commercialisation (RIC) Dr Rizwan Riaz expressed that the scale of participation reflects the talent, ambition and excitement driving Pakistan's growing drone industry. Drone Techx NUST marks an important milestone for technology development in Pakistan, highlighting the rich display of indigenously developing advanced technologies, and the power of collaboration in accelerating innovation, entrepreneurship, and industry growth.

SEECS organises workshop on research process and publication

School of Electrical Engineering & Computer Sciences (SEECS) conducted a comprehensive faculty development workshop titled "From Ideas to Inquiry: Understanding the Research Process and Publication" in collaboration with the Regional English Language Office (RELO), US Embassy. It was led by Dr Ivan Eubanks, an experienced academic mentor and researcher. The session was designed to strengthen research capacity and scholarly writing skills among faculty members. The workshop focused on guiding participants through the entire research lifecycle, starting from transforming initial ideas into well-defined research questions, selecting appropriate research methodologies, and conducting systematic inquiry.

NUST students launch Pakistan's first youth-led Climate Bot

In a promising step toward youth-driven climate action, NUST students have launched Pakistan's first youth-led Climate Bot. Developed in collaboration with Progressive Climate Foundation (PCF) and RISETech, It simplifies complex climate information. It is created by Ehtisham Hussain Bangash, Hasnain Bakhat, and Khawaja Murad ul Hassan. It has a simple conversational interface. Users can calculate their carbon footprint, access real-time climate updates, explore content in multiple languages, and earn eco-points that encourage sustainable habits. The initiative was endorsed by the Prime Minister's Youth Programme, underscoring the growing role of young innovators in driving climate awareness and building a more sustainable future for Pakistan.

Delegate from Beijing Glen International Education Technology visits NUST

Mr Qiao Hongbo from Beijing Glen International Education Technology visited SEECS to explore academic and research engagement opportunities and to gain first-hand insight into the institution's research environment.

During the visit, Mr Qiao was formally briefed on SEECS academic programs, research focus areas and ongoing initiatives, with particular emphasis on emerging technologies and interdisciplinary research. He engaged in a productive and insightful interaction with the faculty of Artificial Intelligence and Data Science, where discussions revolved around current research trends, potential collaboration opportunities and the integration of advanced technologies into teaching and learning.

Establishment of Environmental Reference Laboratory under EMC

NUST Business Development Office, in collaboration with NUST Institute of Environmental Science & Engineering (IESE-SCEE), is establishing a state-of-the-art Environmental Reference Laboratory under the Environmental Monitoring Centre (EMC) in Lahore. The facility will create a dedicated hub for advanced monitoring and analysis of air, water and soil quality. Equipped with cutting-edge technology and supported by interdisciplinary research expertise, the laboratory will greatly enhance real-time environmental data collection and scientific assessment across Lahore and the Punjab region as a whole. By generating accurate, high-resolution environmental insights, the EMC Lab will empower local stakeholders, strengthen pollution management efforts, safeguard water resources, and promote long-term ecological well-being. The initiative speaks of NUST's commitment to advancing evidence-based environmental research and delivering meaningful, community-centered impact.

NUST students shine at RCCI entrepreneurship event

NUST students delivered an outstanding performance at the RCCI & Entrepreneurs' Organisation entrepreneurship event held at the COMSTECH auditorium, where young innovators from across the region pitched ideas centered on creativity, problem-solving and social impact. The event, graced by Chief Guest Sardar Yasir Ilyas Khan, Prime Minister's Coordinator on tourism, witnessed NUST represented by three promising ventures: Minted Financial Board Game by Talha Zafar, Maheen Ahsan, Rahima Ehsin, and Munaza Kafait; Parlai App pitched by Zalaid Saleem; and AKSE presented by Ibrahim Asif. Team Parlai from SEECS secured second position and was awarded a cash prize of PKR 100,000. This proud moment reflects NUST's growing entrepreneurial culture and its commitment to transforming innovative ideas into meaningful impact.

NUST hosts dialogue on "Ethical AI for All"

NUST, in collaboration with The Inclusion Lab and Digital Intellix 4PL, hosted a multistakeholder dialogue titled "Ethical AI for All" at the Deep Learning Lab. The event convened policymakers, UN representatives, industry leaders and innovators to discuss inclusive and bias-free AI that benefits rural and marginalised communities.

Dr Syed Irtiza, Principal SINES, opened the session, highlighting the importance of responsible and human-centred AI. Distinguished speakers, including Mr Julian Gorman, Ms Afke Bootsman, and Mr Michael Schulz, shared global perspectives on governance and digital infrastructure. Meanwhile Dr Faisal Shafait and Dr Momina Moetesum showcased NUST's contributions to ethical AI research and innovation.

With participation from leading organisations such as Ericsson, Telenor, Ignite, Oracle and others, the dialogue reinforced NUST's commitment to advancing inclusive AI aligned with the National AI Policy 2025.

NUST launches public makerspace for young innovators

NUST proudly leads the way in advancing hands-on learning with the inauguration of Karachi's first public makerspace, an open, free-access laboratory empowering school students to design, build, test, and showcase real-world projects.

The initiative, powered by the NUST Formula Student Team and our alumni startup NUVEX, reflects NUST's vision of translating knowledge into innovation and learning into practice.

Built on MIT-informed practices, the makerspace prioritises access for underserved learners and sets a model for partner schools to replicate nationwide. The milestone reaffirms NUST's commitment to shaping a generation of thinkers, innovators, and doers.

NUST hosts "2nd Clean Air Roundtable"

NUST Office of Sustainability, in collaboration with the Ministry of Climate Change & Environmental Coordination (MoCC&EC), hosted the 2nd Clean Air Roundtable under the National Clean Air Initiative. The dialogue brought together key stakeholders from academia, research and government to address Pakistan's pressing air pollution challenges.

The session featured a keynote by Ms. Aisha Moriani, Secretary MoCC&EC, and focused on data sharing, air quality monitoring and AI-driven policy solutions. Participants emphassed stronger collaboration and localised, evidence-based approaches to improve air quality nationwide.

NUST introduces 'Bring Your Own' campaign to promote mindful waste practices

The NUST Office of Sustainability has launched the "Bring Your Own" campaign to promote mindful waste practices and shared environmental responsibility across campus.

The initiative began with interactive sessions encouraging smal but consistent actions for cleaner surroundings. The campaign will continue across all NUST campuses to embed sustainability into everyday practices.

CEME student team secures first runner-up position at APICTA 2025

NUST students from the department of Computer and Software Engineering at College of Electrical and Mechanical Engineering (CEME) have secured the First Runner-Up position at Asia Pacific ICT Alliance (APICTA) 2025, one of the region's most prestigious ICT competitions. Representing BIOMISA Lab, the team presented OsteoScreen, an AI-powered osteoporosis screening application designed as an affordable alternative to DEXA scans. It analyses routine X-rays alongside clinical indicators and predicts bone mineral density, T-scores and fracture risk, enabling early detection, particularly in limited means. Alishba, Eman, Rabaha, and Zeeshan (Batch 2025), worked under the supervision of Prof Dr Muhammad Usman Akram, with co-supervision of Dr Ayesha Haque and Dr Arslan Shaukat, in collaboration with clinical partners.

Inauguration of China-Pakistan Belt & Road Joint Lab on Smart Disaster Prevention of Major Infrastructures

NUST SCEE hosted the unveiling ceremony of the China–Pakistan Belt and Road Joint Laboratory on Smart Disaster Prevention of Major Infrastructures, marking a major milestone in international scientific collaboration. Led by NUST as Pakistan's executive body and Southeast university (SEU), Nanjing, under the supervision of MoST Pakistan, the lab will drive joint research, academic exchange, and innovation in disaster risk reduction and resilient infrastructure systems.

The ceremony was attended by officials and scholars from MoST, NDMA, SEU, and NUST faculty and researchers. Keynote speakers Dr Muhammad Usman and Prof Zhong-Fan Chen highlighted the importance of scientific collaboration in addressing global challenges, while Additional Secretary MoST, Mr Rizwan Sheikh, and Dr Osman Hasan, Pro-Rector (Academics), emphasised research-driven development and knowledge sharing as pillars of scientific excellence.

3 CONFERENCES & WORKSHOPS

The “COP in My City” finale held at NUST

NUST Office of Sustainability, in collaboration with UNICEF, the Ministry of Climate Change, the Prime Minister's Youth Programme, and Youth4Climate, hosted the Conference of the Parties (COP) in My City Finale. Participants engaged in expert-led panel discussions on Pakistan's climate commitments and climate justice, concluding with the announcement of national winners who will represent Pakistan at COP 30 in Brazil, highlighting youth-led climate action across the country.

Solar Pakistan & Sustainability Week

NUST Pakistan Navy Engineering College (PNEC) participated in Solar Pakistan and Pakistan Sustainability Week 2025 at the Karachi Expo Centre, one of the country's largest exhibitions, featuring 250+ companies from 10 countries alongside industry leaders, policymakers and international investors.

The event fostered networking and knowledge sharing, with discussions on sustainable investment, Foreign Direct Investment (FDI), and accelerating the shift to renewable energy in line with Pakistan's net-zero vision. Through its participation, NUST reaffirmed its commitment to research, innovation and sustainability, while providing students with valuable exposure to the evolving energy landscape.

NUST Roundtable on Advanced Engineering and Technology Solutions

NUST Innovation & Commercialistaion (ICON) and NUST School of Mechanical and Manufacturing Engineering (SMME) together, held the 3rd Roundtable on Advanced Engineering and Technology Solutions on August 07, 2025. The session was co-chaired by Mr Adil Khattak (ARL) and Dr Javaid Iqbal (SMME). Industry leaders from POF, HIT, Kohinoor Textile Mills, LMKR, and others participated to exchange insights, advance engineering solutions, and to strengthen academia-industry collaboration.

SCEE organises IC-WEES 2025 to drive sustainable solutions

NUST SCEE organised the fifth edition of its flagship conference on "Water, Energy, and Environment for Sustainability (IC-WEES 2025)" under the theme "Advancing Sustainability, Synergizing Built Environment, Water, and AI."

The conference featured 70 oral and 25 poster presentations selected from over 200 submissions, with 165 attendees including 8 international and 13 national speakers from countries such as Russia, UK, China, Thailand, UAE and Cameroon. Discussions emphasised that water security, clean energy and environmental sustainability must progress together, balancing technological innovation with ecological stewardship.

Pakistan Biochar Summit 2025

NUST's Office of Sustainability, in collaboration with the Atta-ur-Rahman School of Applied Biosciences (ASAB), proudly hosted the Pakistan Biochar Summit 2025 in partnership with Hochschule Geisenheim University. The two-day event brought together researchers, policymakers and innovators to discuss the potential of biochar in enhancing soil fertility, mitigating climate change and advancing sustainable agricultural practices.

CSR Summit debuts at PNEC

NUST hosted its first-ever CSR Summit 2025 at PNEC-NUST Karachi, bringing together over 50 corporate and nonprofit organizations to advance education-focused partnerships. A roundtable discussion on "CSR Spending on Education -Philanthropic Contribution or Strategic Investment?" sparked insightful dialogue on strategic funding and its role in national development.

USPCAS-E circular economy initiatives

NUST USPCAS-E, in collaboration with Sarhad University, convened key roundtables addressing Pakistan's energy and environmental challenges in Peshawar. Experts from academia, industry, and government explored strategies to accelerate Khyber Pakhtunkhwa's renewable energy transition, highlighting the role of academia-industry partnerships and provincial coordination. Presentations covered KP's 8,000 MW renewable portfolio and grid challenges.

Earlier, a roundtable on Pakistan's circular economy introduced a Waste-to-Energy study for Islamabad, with stakeholders endorsing a pilot incineration-based project to reduce landfill pressures, build public trust, and advance national climate goals. The event underscored the importance of coordinated efforts between government, academia, and industry, with USPCAS-E faculty and staff ensuring a seamless and impactful dialogue.

Consultative session to advance Pakistan's solar manufacturing ecosystem

NUST USPCAS-E hosted a consultative session on "Solar Panels to Balance of System: Advancing Pakistan's Solar Manufacturing Ecosystem". marking the formal launch of the report titled, "Crafting a Sustainable Business Model to Drive Indigenous Solar PV Panels Manufacturing in Pakistan". Session highlighted the urgency of building a robust local manufacturing base to meet the country's growing demand for solar technologies and reduce dependence on imports. The experts shared insights on solar market trends, battery integration, policy frameworks and training initiatives.

Roundtable on “Pathways to a Green Pakistan”

NUST CIPS organised a roundtable on “Pathways to a Green Pakistan: Advancing Non-Traditional Security through Collaborative Climate Action for Sustainable Development."

Experts from academia and institutions including GIZ, NDRMF and CePwS discussed the intersection of climate change and human security, emphasising human-centered policies, regional cooperation and inclusive climate action. The session underscored NUST's commitment to sustainability and concluded with a plantation ceremony led by the Principal CIPS.

Expert talk on Peace in Practice and the African Experience

NUST CIPS hosted Maj Gen Zia Ur Rehman HI(M), Retd, former Force Commander of the UN Mission for the Referendum in Western Sahara (MINURSO), for a lecture on “Peace in Practice and the African Experience." The session brought together participants of UNSOC 49, faculty, students and senior officials including the Principal NIPCONS and Associate Dean CIPS.

Maj Gen Zia Ur Rehman highlighted the role of the UN Security Council in peacekeeping and discussed hybrid warfare, accountability, women's participation, and the future of the UN's conflict resolution role. The lecture connected classroom learning with real-world peace operations.

Workshop on Int'l Law for Refugees in Pakistan

NUST Law School (NLS), in collaboration with UNHCR, organised a three-day training workshop on International Law for Refugees in Pakistan at CIPS. The workshop brought together experts, policymakers, legal practitioners, scholars and UNHCR representatives to strengthen understanding of international refugee protection frameworks and teaching practices.

Sessions covered key global and regional legal instruments, the roles of UNHCR and states, course planning methodologies, and refugee and migration trends in Pakistan, particularly Afghan refugees, along with relevant national laws and policies.

International Peace & Security Summer Course

NUST Centre for International Peace and Stability (CIPS) hosted its two-week International Peace and Security (IPS) Summer Course 2025. The programme was an exceptional learning opportunity that explored the complexities of global peace, security, and conflict resolution. Spanning from July 14 to 25, 2025, the programme brought together distinguished scholars, practitioners and professionals, providing a unique blend of academic insight and practical experiences.

Amb Aizaz Chaudhry delivers talk on "Pakistan-India: Dynamics of Conflict and Peace"

As part of the CIPS guest lecture series, Ambassador Aizaz Ahmad Chaudhry delivered a lecture on "Pakistan-India: Dynamics of Conflict and Peace," attended by students and faculty of CIPS and JSPPL.

He traced the historical and contemporary dimensions of Pakistan-India relations and outlined four imperatives : sustained dialogue without compromising principles, strong defence preparedness, a broadened concept of national security in line with the National Security Policy 2022, and effective global projection of Pakistan's narrative. The session concluded with an interactive Q&A, followed by a note of thanks from Maj Gen Zahid Mahmood HI(M) (Retd), Principal NIPCONS.

Summer School on Climate Change

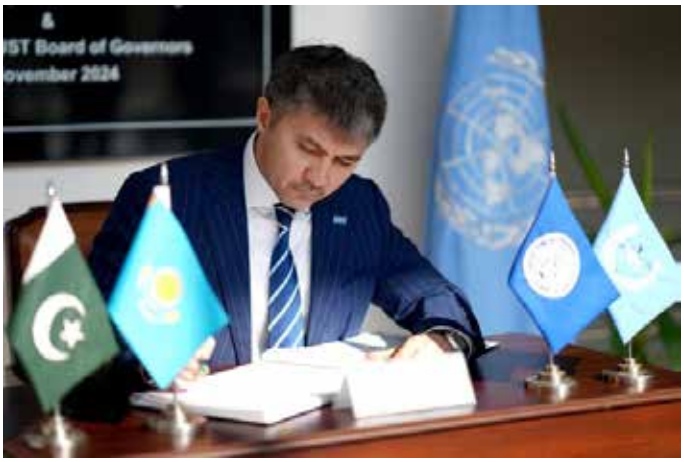

NUST Office of Sustainability hosted the Summer School on Climate Change, bringing together 120 students from across Pakistan. Over the course of the programme, participants explored key dimensions of climate change through expert-led sessions covering public health, green technologies, the circular economy, inclusive sustainability and the water-climate nexus. The learning experience was further enriched by field visits organised in collaboration with partners including the Pakistan Red Crescent Society (PRCS) and the German Red Cross Pakistan.

Keynote on Pakistan-Kazakhstan relations

NUST Institute of Policy Studies (NIPS) hosted a keynote titled "Pakistan-Kazakhstan Relations: Avenues of Cooperation" by H.E. Yerzhan Kistafin, Ambassador of Kazakhstan to Pakistan, at the CIPS Auditorium on December 02, 2025.

Organised in collaboration with CIPS, S3H, JSPPL, and NLS, the event brought together diplomats, scholars, policy experts, government officials, faculty and students to explore avenues for strengthened bilateral cooperation.

Workshop on AI-Driven Transformation in TVET

A two-day workshop titled "Bridging Skills and Technology: AI-Driven Transformation in Technical and Vocational Education" was held at SEECS on November 26-27,2025 under the DAAD-funded Ba-Ikhtiyar Jawan project.

Sessions focused on emerging trends and practical applications of AI in curriculum design, adaptive learning systems, and skill development, highlighting its potential to enhance employability outcomes. Experts from Germany shared international insights through interactive discussions and demonstrations. The workshop marked a significant step in advancing AI-based innovation in vocational education, supporting youth empowerment through technological upskilling under the Ba-Ikhtiyar Jawan initiative.

Workshop on Advancing Digital Inclusion in Higher Education

NUST Business School, in collaboration with Dundee Business School, hosted a two-day workshop on, "Advancing Digital Inclusion in Higher Education" on August 19-20, 2025. The event featured sessions on accessibility, inclusive curriculum and innovative Assistive Technology projects by NUST students. International and local experts, including Dr Ying Wu, Rhona P, Stella Howden, David Millar and Dr Seemab Farooqi, shared global insights. Through initiatives like this, NUST continues to promote an inclusive, innovative and globally connected higher education environment.

SEECS organises HCIA datacom training

NUST SEECS ICT Academy, in collaboration with Huawei, organised a three-week Huawei Certified ICT Associate (HCIA) datacom training for students and industry professionals from July 14 to August 01,2025. Designed to bridge academia and industry, the course equipped participants with practical networking skills aligned with international standards.

Blending theory with hands-on lab sessions, the training covered routing and switching fundamentals, network security concepts, and WLAN technologies. Participants gained practical experience in configuring, managing, and troubleshooting network systems, strengthening their readiness for modern data communication environments.

SMME workshop on “Experimental Fluid Mechanics”

NUST SMME conducted a one-day workshop on Experimental Fluid Mechanics, focusing on Particle Image Velocimetry (PIV) and Vortex-Induced Vibration (VIV). Twenty participants from universities and R&D organisations attended the session, which included an introductory lecture, hands-on PIV demonstrations, and group-based testing and analysis. The workshop was highly appreciated for its practical exposure, with participants expressing interest in future advanced trainings.

Workshop on UAV Remote Sensing

NUST Institute of Geographical Information Systems (SCEE-IGIS), in collaboration with the China-Pakistan Joint Research Center (CPJRC), hosted a four-day International Workshop on UAV Remote Sensing for disaster management. The hands-on training brought together experts from Pakistan and China to enhance national capacity in UAV-based disaster monitoring, rapid assessment and geospatial analytics. International trainers from the Chinese Academy of Sciences (CAS), senior NUST faculty and professionals from public and private sectors guided participants throughout the workshop.

Hands-on workshop on Bioethanol production

The Department of Energy Systems Engineering at USPCAS-E, hosted a one-day workshop on Bioethanol production at the Biofuel Lab. Dr Adeel Waqas, Principal USPCAS-E, and Dr Rabia Liaquat, HoD ESE, highlighted bioenergy's role in advancing the energy transition and achieving SDG-7 and SDG-13.

Participants gained hands-on experience in bioethanol production, observing fermentation processes, ethanol distillation, and alcohol concentration analysis using HPLC under guidance from Lab Engineer Ms Tehreem Assad Khan and PhD scholar Ms Misha Nadeem. The workshop offered students, researchers and sustainability advocates practical insights into renewable energy solutions.

"A Week at NUST" summer internship programme

NUST USPCAS-E conducted Cohort-3 and Cohort-4 of the summer internship program 2025, welcoming a new group of enthusiastic learners as part of its flagship initiative, "A Week at NUST". Hosted at the USPCAS-E facility, this intensive program was designed to equip students with hands-on exposure, domain-specific knowledge and an understanding of the strategic energy challenges Pakistan faces today.

Kohinoor Textile Mills delegation visits NUST

NUST College of Electrical and Mechanical Engineering (CEME) hosted a delegation from Kohinoor Textile Mills, led by Mr. Ali Nawaz, Group Head (HR). The delegation met with the Dean and faculty to explore industry-academia collaboration.

The visit concluded with an interactive session with students, where Mr Nawaz shared insights on HR induction, career development, and evolving industry expectations, making the session both engaging and informative.

ERASMUS+ SQUARES workshop on academic governance

NUST SCEE hosted an International workshop and training session under the auspices of the ERASMUS+ project titled "Sustainability and Quality Assurance for Academic Governance and Redesign of Engineering Studies (SQUARES)". The event brought together partners from ten universities across seven countries, including Poland, Italy, Estonia, Pakistan, Bangladesh, Nepal and Bhutan. Focused on strengthening academic governance and promoting sustainable practices, the workshop included consortium meetings, visits to NUST research facilities, and a cultural excursion, creating opportunities for knowledge exchange, collaboration, and cross-cultural learning.

JICA chair lecture at SCEE on disaster management

NUST SCEE hosted the JICA special lecture, delivered by Dr Satoru Nishikawa, Advisor to JICA. The session highlighted Japan's disaster risk reduction system and global trends in disaster management. Students gained insights into risk assessment, policy development, early warning systems and long-term prevention strategies. The session was followed by an interactive Q&A offering guidance relevant to Pakistan's disaster management landscape.

Dr John Arthur leads workshop on professional development at SNS

NUST School of Natural Sciences (SNS) organised a workshop on professional development for young Pakistanis on November 27, 2025, led by Dr John Arthur, an experienced Occupational Psychologist mentoring international students and supporting youth initiatives in Pakistan.

Dr Arthur highlighted efforts to strengthen university-industry linkages, establish professional development centres and connect youth with global mentors. The workshop focused on the traits of true professionalism and guidance for positioning Pakistani youth in global job markets. Participants gained actionable insights to enhance professional readiness and global competitiveness.

Over 200 students attend NUST Young Students Engagement Programme

The NUST Placement Office organised the NUST Young Students Engagement Programme 2025, with the participation of over 200 high school students from across Pakistan. The two-week program, held from June 24 to July 7, 2025, offered early exposure to university life and career pathways.

The ceremony was graced by Admiral (R) Muhammad Asif Sandila, Chairman Moawin Foundation as chief guest. He commended NUST's initiative in youth development and its role in nurturing academically strong, ethically grounded and socially responsible future leaders.

C³A organises career readiness lectures for students

NUST Centre for Counselling and Career Advisory (C³A) organised a two-day career readiness lecture series for students of ASAB, aimed at empowering them to navigate their professional journeys with clarity and confidence.

The sessions guided students in identifying strengths and career paths, offered insights into emerging trends and leading organisations, and included interview practice to build confidence, reflecting C3A's commitment to preparing future-ready graduates.

YouTube Awareness Series on Mental Well being and Personal Development

C³A launched its YouTube Awareness Series at the start of the fall semester in September 2025. The series is featuring monthly awareness videos throughout the academic year 2025–2026, covering a diverse range of mental well-being and personal development topics, including

C³A training of trainers programme

In line with NUST's commitment to a supportive campus environment, C³A led an initiative to strengthen mental health awareness within the university community. Members of the NUST Community Services Club (NCSC) completed a 20-hour training of trainers programme on Psychological First Aid (PFA), conducted by Ms Saiqa Raziq, Mental Health and Psychosocial Support (MHPSS) specialist. The training equipped students with practical skills in supportive communication, coping strategies, group facilitation and ethical peer engagement.

NSHS conducts training series on disability inclusion

NSHS launched the week-long training series, "Learning4All: A Framework for Disability Inclusion in Research and Education," on November 18, 2025. The initiative aims to foster a more inclusive and accessible academic environment for students and faculty.

Over 35 students from diverse academic backgrounds participated in the inaugural session, engaging in discussions on ensuring education and research are accessible to all. The session featured experts Dr Alison Harold (Coventry University, UK), Ms Abia Akram (CEO, STEP) and Dr M Fayyaz (Manchester Metropolitan University, UK). This initiative underscores NUST's commitment to building an inclusive and accessible environment in research and education.

4 PARTNERSHIPS FOR IMPACT

Rector visits FIRD-UK to strengthen academic links

During an outreach visit to the United Kingdom, Rector NUST, Dr Muhammad Zahid Latif, along with his delegation, visited the Forum for International Relations Development (FIRD-UK) headquarters in London. The meeting explored opportunities for academic collaboration, research exchange and capacity building between NUST and partner institutions in the UK.

Rector appreciated Mr Toaha Qureshi, MBE, Chairman of FIRD-UK, for his longstanding association with NUST as a valued donor. He further commended Mr Qureshi's continued commitment to advancing higher education and building partnerships that reflect NUST's vision of sustainability, innovation and global engagement.

NUST fosters relations with Staffordshire university

As part of his official visit to the United Kingdom, Rector NUST Dr Muhammad Zahid Latif, accompanied by senior leadership, visited Staffordshire university for a high-level roundtable with the university's executive team and a tour of key academic and research facilities.

Hosted by Professor Dr Raheel Nawaz, Pro Vice-Chancellor (Education and Research) and a proud NUST alumnus (MCS 1999), the visit reaffirmed NUST's commitment to expanding global partnerships that bridge technology, creativity and innovation.

Discussions focused on strengthening joint initiatives in artificial intelligence, computing and the creative industries, building on the success of the jointly established Creative Artificial Intelligence Lab (CAIL).

Ambassador of Bosnia and Herzegovina meets Rector

NUST had the honour of hosting H.E. Mr Emin Čohodarević, Ambassador of Bosnia and Herzegovina to Pakistan, at the university.

During his interaction with Rector NUST, Dr Muhammad Zahid Latif, both sides discussed avenues for academic collaboration, research partnerships and student exchange opportunities between NUST and leading Bosnian institutions. The discussion also highlighted shared priorities in innovation, capacity building and strengthening people-to-people linkages.

NUST and Coventry university strengthen academic ties

Dr Elena Gaura, Associate Pro Vice-Chancellor at Coventry university, UK, called on Rector NUST, Dr Muhammad Zahid Latif.

The meeting focused on strengthening collaboration between NUST and Coventry University in areas of mutual interest, including joint research, academic exchange and innovation-driven initiatives. The Rector appreciated Dr Gaura's longstanding association with NUST and her continued support in advancing international linkages and research excellence.

NUST signs landmark MoU with NDU, KSA

Rector Dr Muhammad Zahid Latif led NUST's delegation to formalise a landmark memorandum of understanding with the National Defence university (NDU), KSA.

The collaboration marks a major step in strengthening academic and strategic ties between Pakistan and Saudi Arabia, opening avenues for bilateral engagement. It establishes a broad framework for cooperation across academic twinning, specialised peacekeeper training, e-learning, and joint academic programs.

The Rector welcomed NDU's forward-looking vision and reaffirmed NUST's commitment to developing impactful learning frameworks, making this partnership a unique honour for the university.

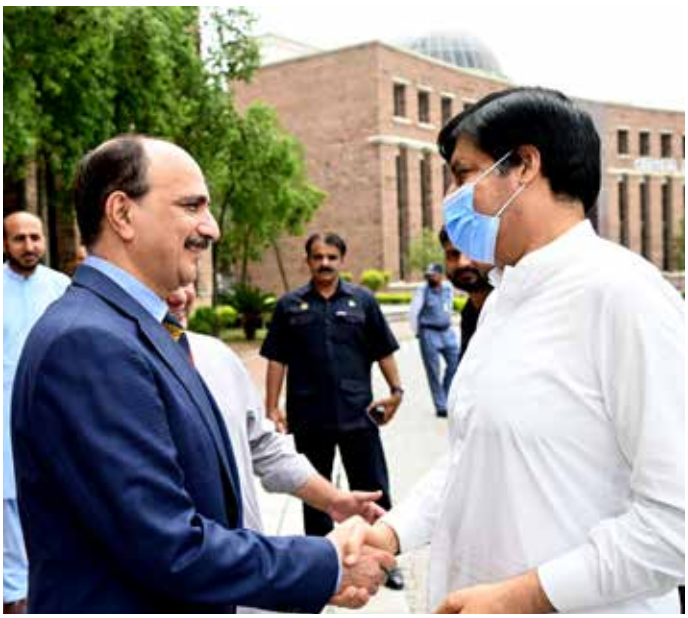

Governor Punjab visits NUST

NUST had the honour of hosting the Governor of Punjab, Sardar Saleem Haider Khan, at its Islamabad campus. The esteemed guest was warmly welcomed by Pro-Rector Planning & Resources, Maj Gen (Retd) Muhammad Arif Malik.

The visit provided a platform to explore strategic collaboration between NUST and the Government of Punjab, particularly in youth empowerment, research commercialisation, and digital transformation. The Pro-Rector shared NUST's vision of integrating academic excellence with innovation to create national impact.

Governor Sardar Saleem Haider Khan praised NUST's role as a national trailblazer in higher education, highlighting its pioneering research, strong industry partnerships, and community outreach. He also appreciated the university's future-focused efforts to equip youth with 21st-century skills and support a knowledge-based economy.

Groundbreaking NUST-SESP partnership to advance engineering Education

NUST has formalised a groundbreaking partnership with Saudi Electric Services Polytechnic (SESP) through a memorandum of understanding signed at the Smart Grid Conference SASG25.

The MoU, signed by Pro-Rector Academics NUST, Dr Osman Hassan, and Ebtihal Alhashim, Deputy Managing Director of SESP, will advance education and innovation in Robotics, Artificial Intelligence, Renewable Energy, Data Science and more.

This collaboration enables joint training programmes, faculty and student exchanges, and collaborative research, preparing the next generation of engineers to meet industry challenges. Together, NUST and SESP aim to shape the future of engineering education and strengthen Pakistan-Saudi Arabia ties.

NUST partners with NAP to preserve academic heritage

In a significant step towards preserving Pakistan's academic and institutional memory through varsity-level archiving initiative, NUST signed a landmark MoU with the National Archives of Pakistan (NAP) at a formal ceremony held at the NUST Central Library. The ceremony was graced by Mr Tariq Fazal Chaudhry, Federal Minister for Parliamentary Affairs, as chief guest, alongside senior officials from the Cabinet division. The collaboration marks a major initiative in varsity-level archiving and safeguarding institutional heritage.

NUST and HBL explore industry-academia collaboration

Mr Muhammad Nassir Salim, President & CEO of Habib Bank Limited (HBL), called on Rector NUST, Dr Muhammad Zahid Latif, on July 29, 2025.

The meeting explored avenues for collaboration between NUST and HBL, with both leaders reaffirming their commitment to strengthening industry-academia linkages and contributing to national development and human capital advancement.

NUST launches fund to support women in higher education

Rector NUST, Dr Muhammad Zahid Latif, signed a Document of Understanding (DoU) with Mr & Mrs Ali Mahmood to establish a scholarship fund supporting 10 female postgraduate students at the university.

The fund will provide sustained financial assistance, prioritising students facing financial challenges.

The signing ceremony was also attended by Hon. Shahnaz Wazir Ali, former member of the National Assembly.

NUST and Nankai university forge academic partnership

Rector NUST, Dr Muhammad Zahid Latif, visited Nankai University, China, on July 10, 2025, and signed a landmark MoU with President Prof. Chen Yulu to deepen cooperation in education, research and innovation.

The agreement will enable student and faculty exchanges, joint research, internships, and shared innovation platforms. Both institutions reaffirmed their commitment to a forward-looking partnership based on knowledge exchange and long-term impact, marking another step in NUST's growing global academic footprint.

NUST-NADRA partnership to drive digital innovation

NUST and NADRA have entered into a strategic partnership to advance technology innovation, cybersecurity, and talent development in Pakistan.

The MoU, signed at NUST, formalises a shared commitment to initiatives in applied research, technology development, capacity building, and knowledge exchange, addressing emerging challenges in cybersecurity and data systems.

Senior leaders from both organisations hailed the partnership as a milestone in bridging policy, research, and technology, emphasising its role in building secure, efficient, and citizen-centric digital infrastructure. The collaboration reflects a shared vision to cultivate skilled professionals, harness cutting-edge technologies, and contribute to Pakistan's digital transformation.

NUST-OGDCL enters into collaborative partnership

NUST and Oil & Gas Development Company Limited (OGDCL) formalised a strategic research collaboration during a signing ceremony at OGDCL headquarters, Islamabad. The partnership focuses on a decarbonisation project aimed at reducing greenhouse gas emissions from OGDCL's operations, exploring solutions such as carbon capture, utilization, and storage (CCUS), operational optimisation, and sustainable process design.

Led by Dr Muhammad Fahim Khokhar, Principal Investigator at NUST SCEE IESE, a multidisciplinary research team will develop practical strategies for emission reduction and sustainability. The collaboration aligns NUST's academic expertise with OGDCL's operational experience, creating a model for industry-academia cooperation and a potential blueprint for greener practices across Pakistan's energy sector.

NUST and PSEB launch digital design verification programme

NUST has signed a landmark MoU with the Pakistan Software Export Board (PSEB), in collaboration with the Ministry of IT and Telecom (MoITT), to launch a specialised digital design verification programme.

Led by NUST Professional Development Centre (PDC) and NUST Chip Design Centre (CDC), the 5-month on-campus programme equips participants with industry-relevant skills through expert-led instruction, hands-on lab work, and a capstone project.

The initiative highlights NUST's commitment to national capacity building in emerging technologies, particularly semiconductors and digital design, supporting Pakistan's vision of a knowledge-based economy.

NUST, Saudi Pak Industrial & Agricultural Investment Company to advance professional training

NUST has entered into a strategic partnership with Saudi Pak Industrial & Agricultural Investment Company Limited through the signing of a memorandum of understanding (MoU). Under this collaboration, NUST Professional Development Centre and Saudi Pak will work together to advance capacity building and knowledge-sharing initiatives, opening new avenues for professional training and executive development. The partnership reinforces NUST's commitment to fostering industry-academia linkages and its role as a national leader in human capital development.

NUST and Adonis join hands for student innovation

NUST School of Art, Design and Architecture (SADA) has partnered with Adonis (Tayraak), a leading footwear company, to strengthen industry–academia collaboration. The partnership will include lectures, workshops, prototyping support, and future product launches featuring selected student designs. Through this initiative, SADA provides hands-on experience and meaningful industry exposure, reinforcing NUST's commitment to innovation and excellence.

NUST partners with Jhpiego to advance public health initiatives

NUST School of Health Sciences (NSHS) has signed a letter of understanding (LOU) with Jhpiego, formalised by Prof Dr Rizwan Ashraf, Principal NSHS, and Dr Aminah Khan, Country Director, Jhpiego. The partnership focuses on capacity building for healthcare professionals, high-quality training programmes, public health education, and joint research ventures. This collaboration reflects NSHS's commitment to integrating best practices into health sciences education and contributing to national health priorities.

NUST hosts CSCEC Pakistan for UWB programme inauguration

NUST hosted the CSCEC Pakistan delegation for the UWB programme inauguration at the Research & Innovation Centre (RIC). Senior NUST representatives welcomed the delegation and discussed ways to strengthen academic-industry collaboration, facilitated by the NUST Placement Office. The ceremony featured CSCEC Pakistan's corporate video and the UWB programme brand video, followed by a presentation highlighting NUST's commitment to industry engagement, student skill development, and experiential learning. A leadership exchange session explored internships, employment pathways, and student project opportunities. The event concluded with the unveiling of the Luban Workshop plaque, reaffirming CSCEC and NUST's intent to pursue future collaborations that promote innovation, skills enhancement, and opportunities for Pakistan's youth.

NUST hosts discussions on Learning4All project

NUST SMME hosted discussions on the Learning4All project, a joint initiative with Coventry university and Manchester Metropolitan university. The project focuses on creating an inclusive higher education environment, and the discussions strategised on a forward path to implement the project's goals effectively, highlighting NUST's commitment to inclusive and accessible education.

NUST & PPMC collaborate for energy dialogue series

An MoU was signed between USPCASE and the Power Planning and Monitoring Company (PPMC) under the Ministry of Energy, establishing a framework for joint dialogues on energy issues. As part of the collaboration, ongoing energy challenges will be translated into student theses, enabling NUST students to contribute to sustainable and practical solutions. The initiative reflects a commitment to linking academic research with national energy priorities.

NUST prepares for AACSB accreditation

Rector NUST welcomed Dr John Kooti, Dean of John L. Grove School of Business, Shippensburg university, USA, and AACSB Peer Reviewer, during his consultative visit to NUST on November 19, 2025.

The visit was part of NUST Business School's (NBS) preparations for the AACSB Initial Accreditation Visit in May 2026, providing developmental guidance ahead of the formal review. Dr Kooti shared preliminary observations on strategic direction, faculty development, assurance of learning, and alignment with AACSB standards.

The Rector highlighted NUST's vision for growth in business education, ongoing academic enhancements, and commitment to quality, relevance and societal impact. The exchange offered valuable insights and reaffirmed NUST's resolve to achieve international accreditation benchmarks.

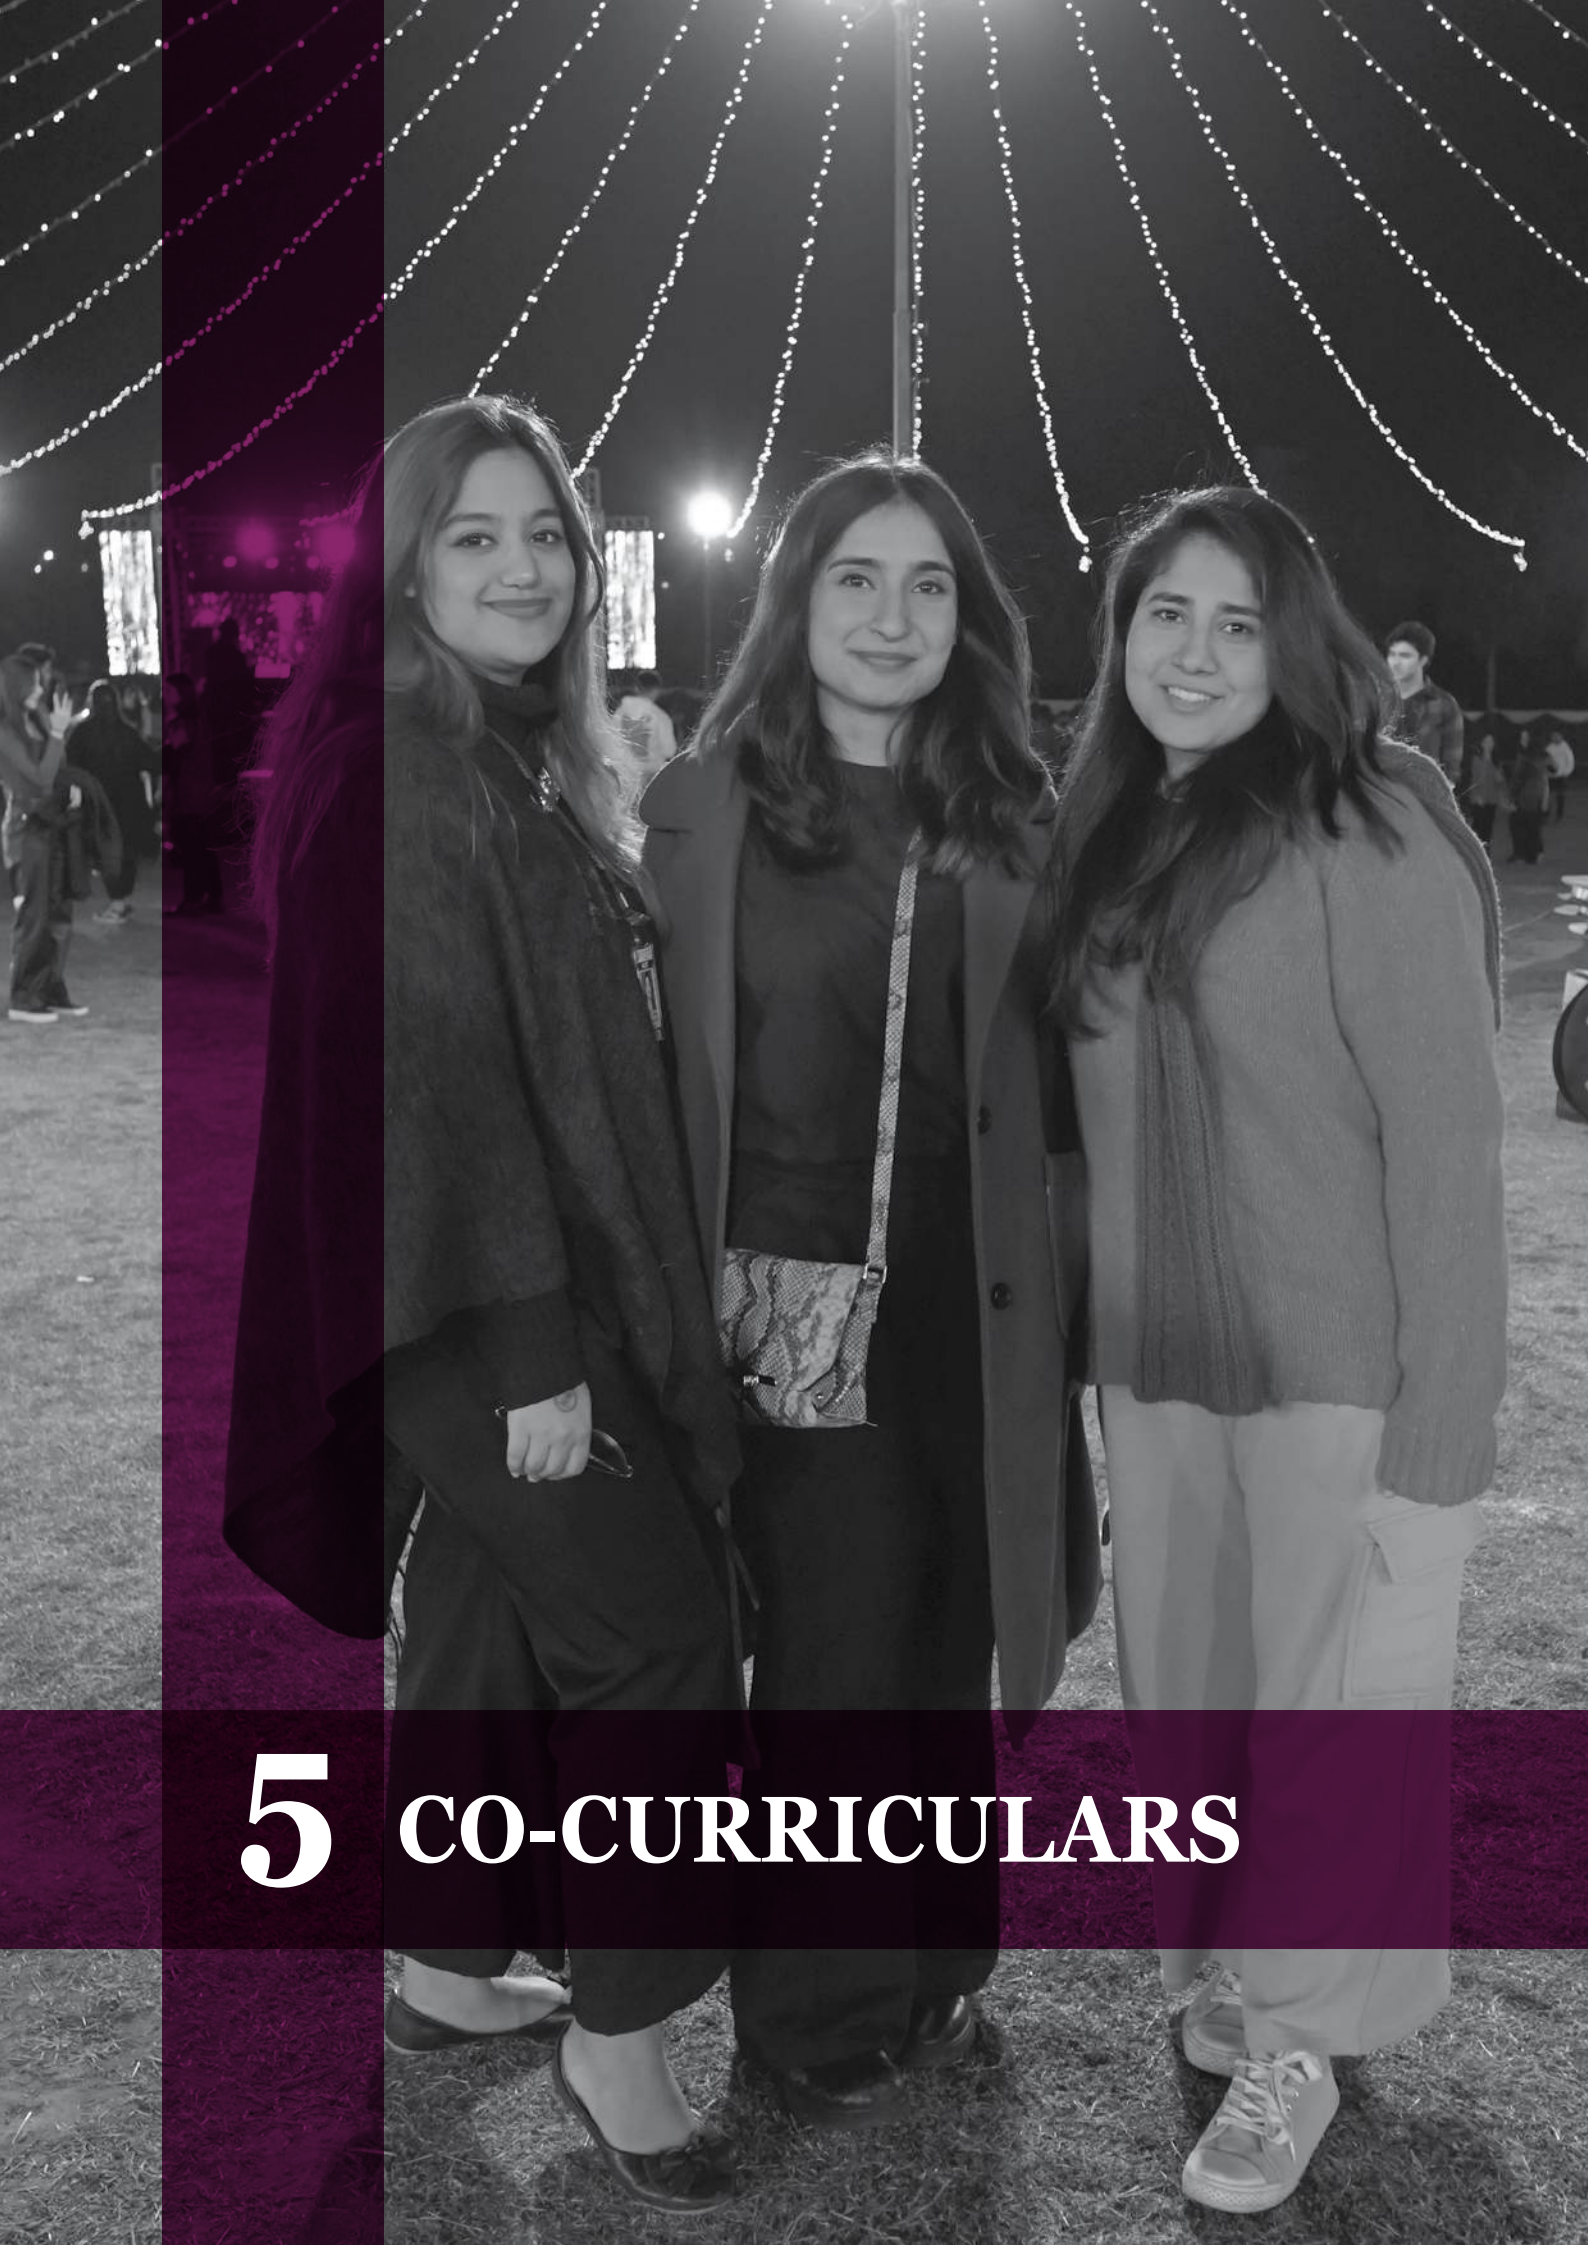

NUST inaugurates didactic learning laboratory

NUST SCEE inaugurated a Didactic Learning Laboratory under the Erasmus+ SQUARES project, attended by university leadership, faculty, students, and EU project representatives. The lab is equipped with advanced tools supporting smart infrastructure, environmental management, and quality assurance research. It enables simulation-based learning, data analysis, and hybrid collaboration with EU partners, marking a significant step in enhancing digital education and fostering EU–Pakistan academic cooperation.

5 CO-CURRICULARS

NUST **HR Directorate** organised a lively

مزاحیہ مشاعرہ

A Laughter Therapy for all Employees

Celebration of TEACHER'S DAY with HR

Christmas celebrations at H-12 campus

NUST celebrated Christmas across its campus, reflecting the university's commitment to inclusivity, mutual respect, and cultural harmony. The celebrations were observed across various schools, including SEECS, where the Principal, faculty and staff joined in expressing goodwill and solidarity with the Christian community. The occasion reaffirmed NUST's dedication to fostering a campus environment where diversity is respected and every community feels valued.

19 startups take centre stage at Pitch Bazar 2025

NUST National Science and Technology Park (NSTP) supported the NUST Entrepreneurs Club in hosting Pitch Bazar 2025, reaffirming its commitment to youth empowerment and entrepreneurship. The one-day event brought together 19 startups from leading universities of the twin cities, providing young innovators a platform to present early-stage ideas and prototypes. Having already engaged over 10,000 students across Pakistan, NSTP continues to foster an ecosystem where students can experiment, innovate, and grow their entrepreneurial journeys.

Orientation 2025 welcomes freshmen

NUST held its 9th Orientation for the Batch of 2025 from September 1-3, 2025. Over 2,600 freshmen joined the vibrant NUST community, beginning their academic journey with an immersive introduction to campus life.

The opening ceremony at Jinnah Auditorium offered parents and guardians a warm welcome, an interactive Q&A session, and an overview of NUST's facilities, academic opportunities, and student support services. Freshmen engaged in a variety of activities designed to ease their transition into university life. The ON Festival on Day 3 featured interactive stalls by clubs and societies alongside a lively social night, giving students a glimpse into NUST's dynamic extracurricular landscape.

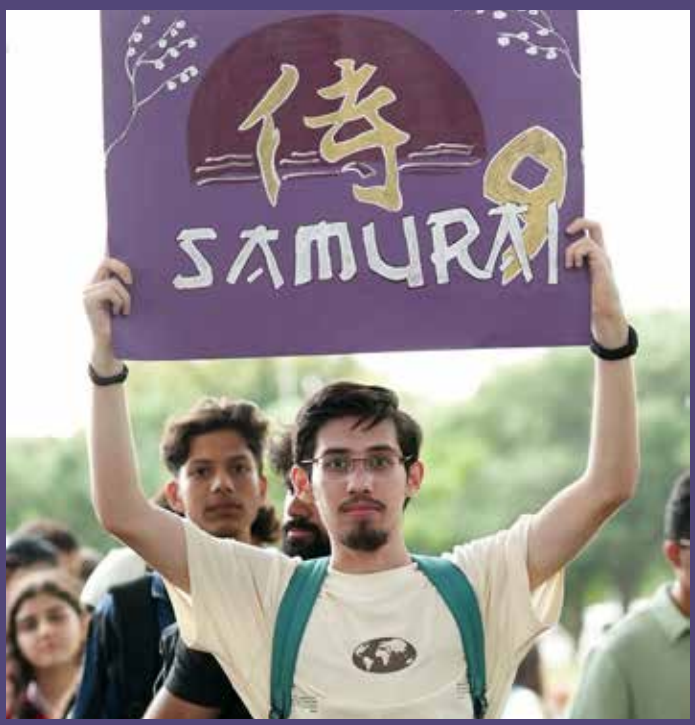

World Space Week 2025

NUST SNS celebrated World Space Week 2025, from October 8 to 17, through a series of on-campus and online activities organiSed by the NUST Physics and Astronomy Society (NPAS) under the supervision of Dr Noraiz Tahir. The event attracted over 1,100 participants, reflecting strong interest in astronomy and space science.

Key activities included Cosmic Quest, Movie Night, Apollo's Eye, and the flagship Astronomy Night, along with online competitions in writing, astrophotography, graphic designing, and reel-making. The celebration concluded with Astronomy Night at SCME Ground, where multiple telescopes enabled participants to observe the night sky, making the event a memorable experience for the NUST community.

EFx NUST brings together engineering talent from across Pakistan

EFx NUST was a national-level innovation and engineering festival that brought together talent from across Pakistan. The event featured a prize pool of over Rs. 1 million, making it one of the most rewarding technical competitions of the year. It included a diverse range of modules, covering both engineering and non-engineering domains to ensure broad participation. Participants engaged in challenges that tested creativity, problem-solving and technical skills. The event showcased the spirit of NUST in promoting innovation and student leadership.

NSHS students' week celebrates talent and culture

NSHS students' week, held from September 22 through 24, 2025, was a vibrant celebration of literature, creativity and culture. The week kicked off with Debate, Qira'at, and Baitbazi competitions organized by the Peace and Literary Club, where students from the four Houses competed with enthusiasm, displaying confidence and teamwork. The Inter-House Cultural Day, led by the Performance Arts Club, brought Pakistan's provinces to life through role plays, cultural videos and performances. From the energetic Attan of Khyber Pakhtunkhwa to Sindh's modern folklore, Balochistan's folktale adaptations, and Punjab's poetic heritage, students showcased creativity, social awareness, and pride in the nation's rich cultural tapestry.

Student teams represent Pakistan at TeknoFest 2025

NUST made a mark at TeknoFest 2025 in Kocaeli, Türkiye, with two student teams representing Pakistan. Team Peregrine Squadrons from SMME, led by Ikhlas Jamshaid, secured 5th place in the Virtual Stage and finished in the Top 10 among 72 global finalists with their innovative UAV design. Team Vitesse II from SEECS competed in the Free Mission category, achieving 19th position worldwide and reaching the finals.

These achievements showcase NUST's excellence in UAV innovation and its commitment to preparing students for global challenges.

Urdu declamation competition marks 78th Independence Day at NBC

NUST Balochistan Campus (NBC), Quetta, hosted an Urdu Declamation Competition celebrating Pakistan's 78th Independence Day under the auspices of HQ 12 Corps. The event was graced by Provincial Minister for Education, Madam Raheela Durrani, as chief guest.

A total of 42 participants from 39 institutions took part in the competition. Ms Amna Nadeem from NUST Balochistan Campus secured first position, receiving a cash prize of Rs. 0.3 million. The occasion also featured patriotic national songs presented by students, adding to the festive spirit of the Independence Day celebrations.

NMO-2025 fosters nationwide engagement

The NUST Mathematics Olympiad, held on December 6, 2025 at SNS, brought together 160 participants from universities across Pakistan to showcase their mathematical and analytical abilities. LUMS secured first place, while NUST claimed both second and third positions through teams from SNS and SEECS, respectively. Prof. Rashid Farooq, Principal and Dean SNS awarded cash prizes, certificates, and shields to the top three teams. Beyond assessing mathematical talent, NMO-2025 served as a valuable platform for strengthening NUST's academic outreach and fostering nationwide engagement in mathematical excellence.

Summer Quest Camp inspires young leaders

The Central Library NUST hosted Summer Quest Camp-Season III, a 2-week learning program for children and teens aged 7 to 18. The camp saw enthusiastic participation and offered a dynamic mix of creativity, exploration and skill development. Through hands-on activities such as VR experiences, astronomy sessions, art and yoga workshops, graphic design, storytelling, and life-skills training, along with an educational visit to the Army Museum, the camp provided an engaging and inspiring environment for young learners.

NUST student formula car team at Silverstone

The opening days of Formula Student UK at the iconic Silverstone Circuit marked an exciting milestone for the team proudly representing Pakistan. From setting up in the historic paddock to presenting their engineering vision, the experience was filled with learning, collaboration and inspiration. Surrounded by teams and innovators from across the globe, the event offered a unique opportunity to exchange ideas, showcase talent and engage with the international engineering community.

NUST continues its winning streak at HEC competitions

NUST has once again showcased its debating excellence at the Pakistan Universities Debating Championship (PUDC), the country's premier Urdu and English debate competition organised annually by the Higher Education Commission (HEC). Over the past two years, NUST has consistently secured top positions at both regional and national levels, reflecting the university's strong culture of intellectual engagement, critical thinking and student leadership.

NBC stands out at NAB inter-university competitions

NUST Balochistan Campus displayed an outstanding performance at the inter-university essay writing, declamation, and sports competitions organised by the National Accountability Bureau (NAB) Balochistan in connection with World Anti-Corruption Day. The event aimed to promote awareness, integrity, and healthy competition among students.

NBC secured 1st and 2nd positions in declamation, 1st position in essay writing, and achieved overall 2nd position in sports events at the provincial level. NBC's achievements, among 11 competing universities, highlight the campus's strong emphasis on academic excellence, teamwork and holistic student development.

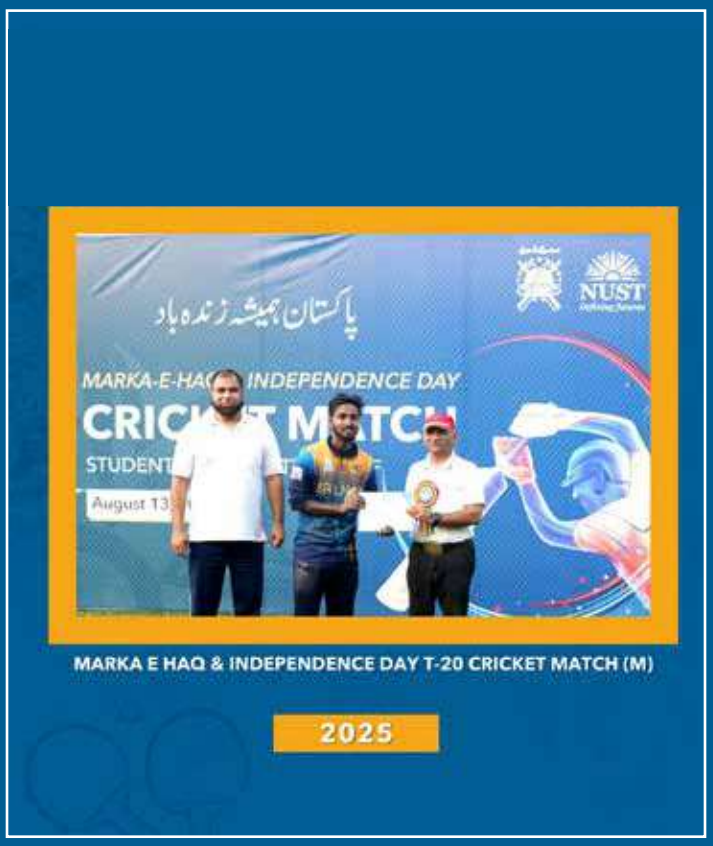

Sports week brings energy and school spirit at NSHS

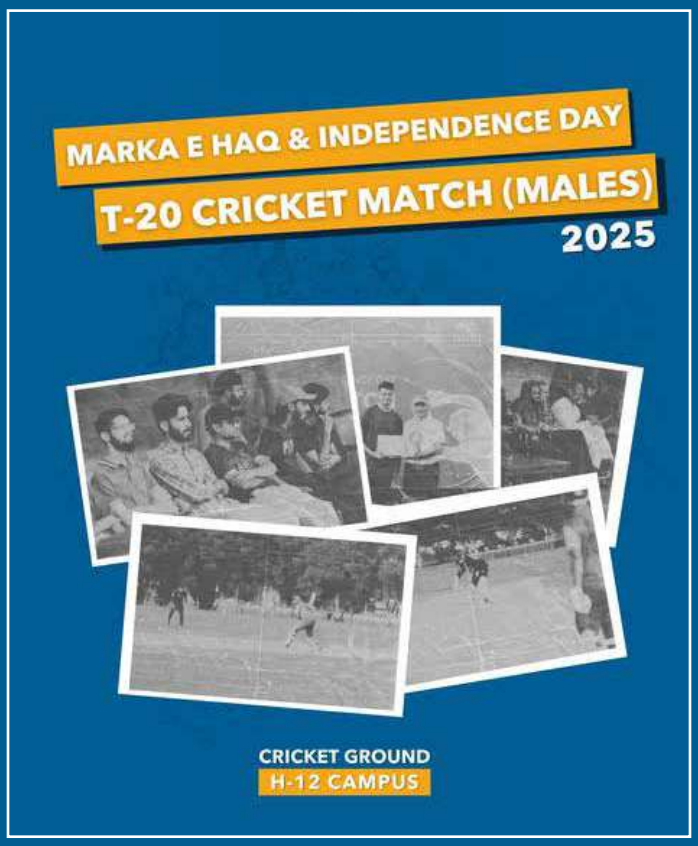

NSHS hosted a lively Sports Week from September 22 through 26, 2025, celebrating athleticism, teamwork and school spirit. Students took part in relay races, team matches, and exciting competitions, fostering healthy rivalry and camaraderie. The week brought together students, faculty, and staff, creating lasting memories and strengthening bonds across the school community.

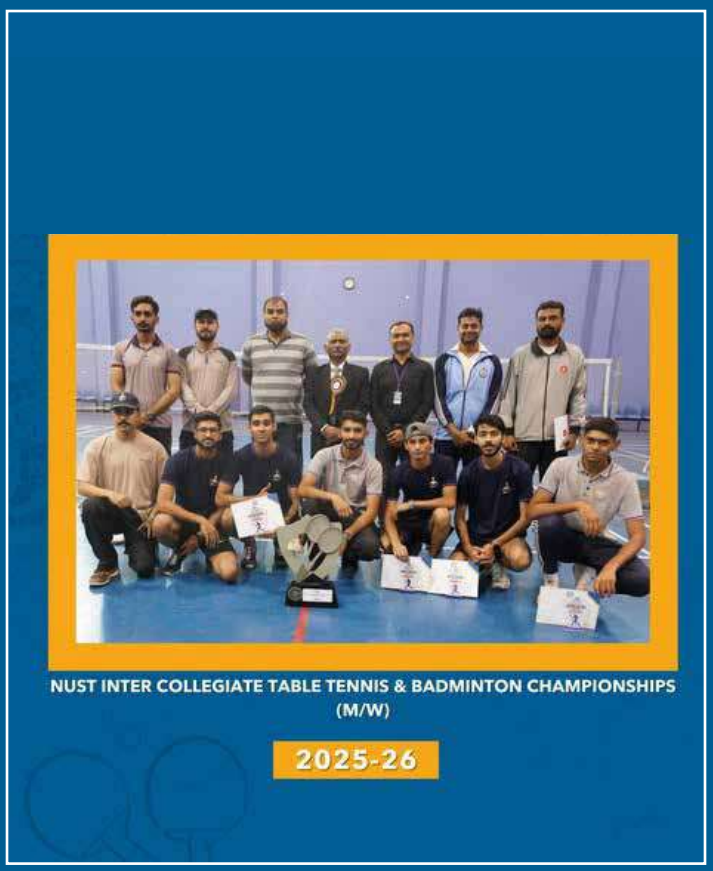

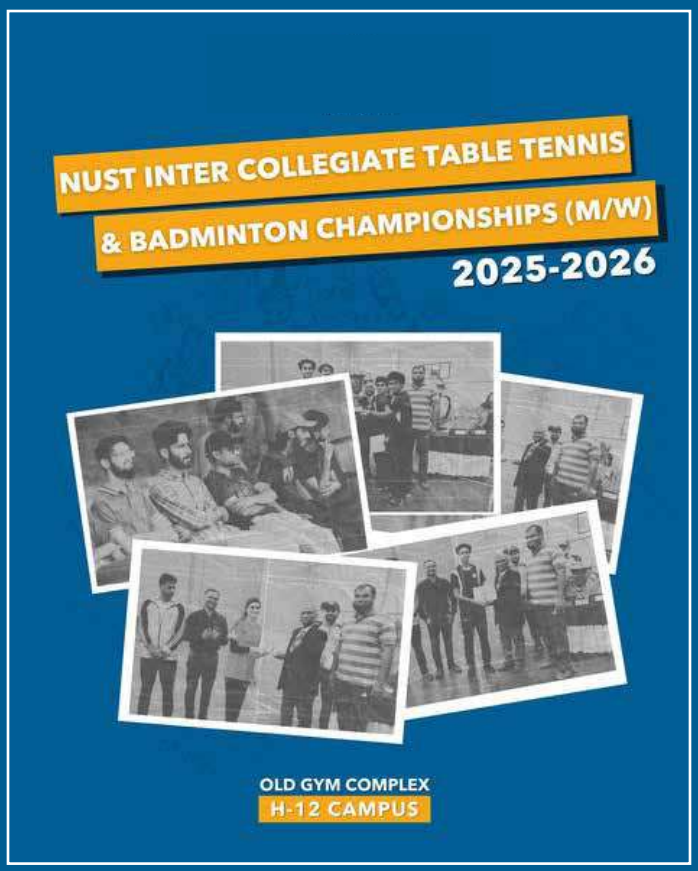

NUST Sports Roundup

At NUST, sports continue to invigorate campus life, bringing students together to invoke passion, endurance, tenacity and teamwork. The *Marka-e-Haq* & Independence Day T-20 Cricket Match 2025 showcased both competitive spirit and national pride at the H-12 ground. The arenas came alive during the Inter Collegiate Table Tennis and Badminton Championships 2025–26, featuring intense matches and remarkable performances. Students demonstrated skill, resilience, and sportsmanship across all events. These activities highlight NUST's commitment to multidimensional development beyond academics. Through sports, students build leadership, discipline, and lasting connections. The vibrant sporting culture at NUST continues to inspire excellence and unity.

NUSTians install water filtration plant at G-15 sector

As part of the Community Service course at SCME, NUST, a team of students successfully implemented a project to provide clean drinking water to a local community in Islamabad's G-15 sector. Addressing the area's limited water availability, the students installed a 2,000-liter water filtration plant, benefiting over 1,500 residents across 500 households. Entirely student-led, the project included fundraising, financial planning, and execution under the guidance of Ms Sehrish Hamid Butt, Manager of Community Service at NUST.

Blood donation drive collects 550+ pints

NUST NCSC in collaboration with the Jinnah School of Public Policy & Leadership (JSPPL), organised a blood donation drive. Over three days, 700 donors registered, resulting in the collection of 550 pints of blood. The event also featured entrepreneurial and food stalls, creating a vibrant and collaborative atmosphere while encouraging strong student participation.

Book Asylum 6.0 promotes literacy and learning

NUST Community Services Club (TABA) organised Book Asylum 6.0 at Government Girls High School, Chak Khas Rawat, to promote literacy and nurture a love for reading among young students. The initiative aimed to expand access to knowledge and learning opportunities for curious young minds. Through book sharing, storytelling, and interactive engagement, volunteers strengthened community bonds and inspired students to dream bigger. As part of the event, a small library was established at the school and a large collection of books was donated, ensuring a lasting impact beyond the day's activities.

Food drive reflects strong community engagement

NUST NCSC, in collaboration with Saylani International Welfare Trust, organised a food drive at G-9 Station, Islamabad. With the support of 25 volunteers, fresh meals were distributed to over 300 people from the local community. The initiative aimed to address food scarcity in underserved areas while promoting compassion, awareness, and community support. The volunteers' dedication reflected NUST's commitment to making a meaningful difference in society.

Clothes donation drive supports 500 people

NUST Community Service Club (NCSC) organised its annual Clothes Donation Drive at Mashal Model School, Bari Imam, distributing over 5,000 clothing items to support more than 500 community members. The drive followed a month-long campus-wide campaign with several collection points at campus, reflecting strong participation from the NUST community. Through careful sorting and dignified distribution, children, adults, and elders were able to select items suited to their needs, making the initiative a meaningful expression of empathy, community engagement, and collective impact.

NCSC volunteers visit HSF Orphanage

NCSC visited the HSF Family Home in H-13 as part of its Orphans' Know More (OKM) Project, where 26 volunteers spent the day engaging with 23 children aged 4-13 in a supportive learning environment. The visit focused on promoting environmental responsibility through the concept of the 3Rs: Reduce, Reuse, Recycle. The session featured a screening of The Lorax to highlight the importance of caring for nature. Children also crafted mini dustbins using recycled cardboard. The initiative combined learning, creativity, and compassion.

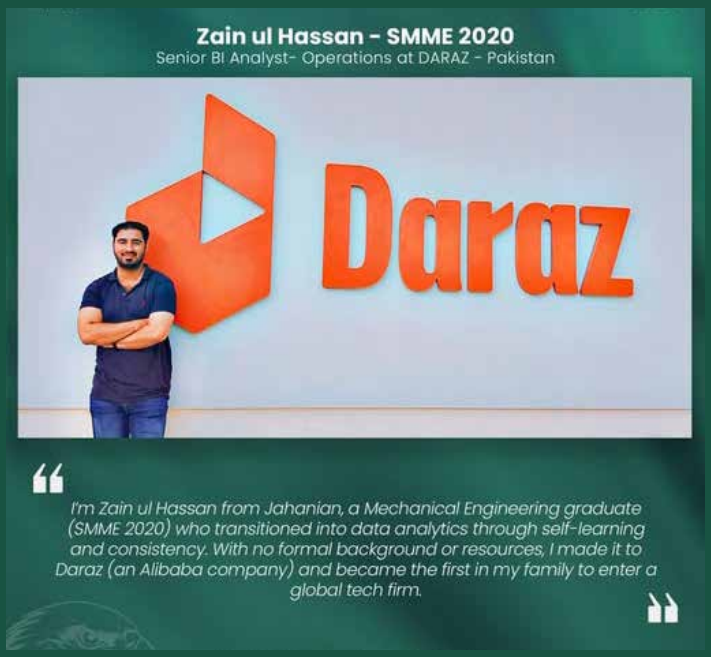

6 ALUMNI AFFAIRS

NUST ALUMNI
THE GAME CHANGERS

Our alumni network stands as a powerful force of innovation, leadership, and impact. They all share a vision to create meaningful change by empowering individuals and uplifting communities through collaboration and knowledge exchange. Leaders, innovators, and change-makers, our alumni continue to leave their mark across industries and borders. From pioneering roles in multinational organisations to building transformative startups, they exemplify excellence, integrity, and ambition. Each success story reflects the values nurtured at NUST—resilience, curiosity, and a commitment to progress.

Beyond professional achievements, our alumni remain deeply connected to their alma mater, contributing through mentorship, partnerships, and knowledge sharing. They inspire current students, opening doors to new opportunities and guiding the next generation of leaders.

Congratulations!

Prof Dr Raheel Nawaz - MCS (1999)
Pro Vice-Chancellor at
University of Staffordshire

Distinction: Sankore University Award for Excellence in Education by The Muslim News Awards for Excellence 2025

Muhammad Shafay Ijaz
SEECS, NUST

Distinction: First position in the CSS Competitive Examination 2024

Students from DC&SE
College of EME

Distinction: Two Runner-up Awards at the P@SHA ICT Awards 2025, earning the honour to represent Pakistan at APICTA 2025 in Taiwan

Dr Shahreen Khan - SMME, NUST
PhD Biomedical Sciences

Distinction: Member of Pakistan's first all-women expedition to summit the 5,400-meter Bari La Peak in Gilgit-Baltistan

MUHAMMAD MUBASHAR
SMME, NUST student

Distinction: Selection in International Internship Pilot Programme,National Science & Technology Corporation, Taiwan!

ZAINAB ALI
BS Public Administration 2022,
Department of Government & Public Policy,

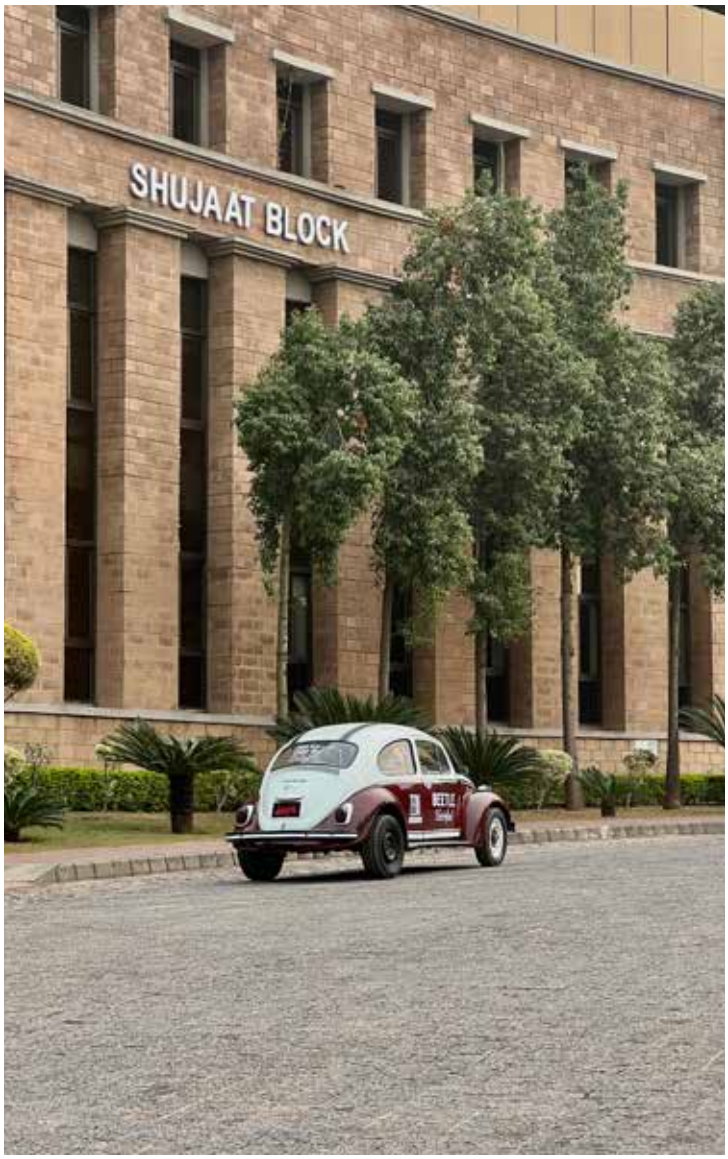

Distinction: Only Pakistani in Summer UG Research Fellowship at Xi'an Jiaotong-Liverpool University (China-UK)

NUST Through My Lens

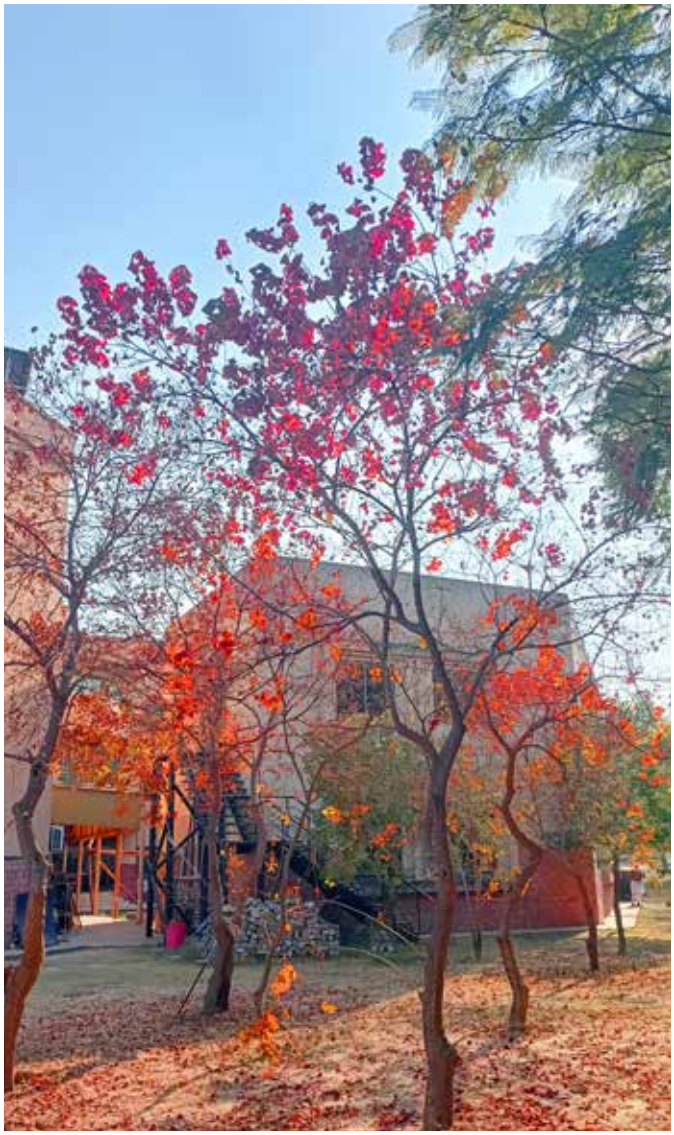

These creative clicks capture the warm hues and tranquil charm of fall on campus. From golden leaves to serene green spaces touched by autumn, each frame tells a unique seasonal story. Through the lens of talented photographers, NUST comes alive in the colors of fall.
