Defining futures

PAKISTAN THE LAND OF RESILIENCE

Dr. Abdus Salam (late), world renowned physicist and winner of Nobel Prize in Physics (1979), is highly lauded for his prolific work. He stands as a beacon for Pakistani youth, his fellow countrymen and the world's scientific community at large.

Professor Dr. Atta-ur-Rahman's notable achievements in the fields of science and technology have started a new era for Pakistan. He holds vast experience of working at key positions with the international scientific community and has won the prestigious UNESCO Science Prize. He is also a member of Board of Trustees (BoT) of NUST Trust Fund (NTF).

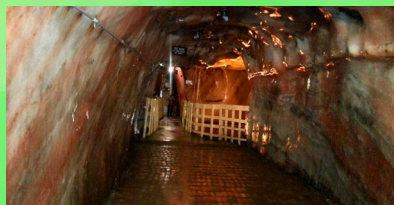

Malala Yousafzai is a Pakistani student and education activist who began speaking out for girls' education at the age of 11. After surviving an assassination attempt by the Taliban at 15, she co-founded the Malala Fund, with an aim of creating a world where every girl can learn and lead without fear. She is the youngest ever Nobel Laureate.
