

**Course Title : Pre Doctoral Internship**

**Course Code** : PSY-921

**Credit Hours** : 3

**Pre-requisite:** Clinical Internship, Psycho-diagnostics, Ethics and Psychotherapy

**Course Description:**

1. Pre-doctoral Internship is an integral part of curriculum as it is imperative that the scholar demonstrates the expertise in handling the psychological issues in his/her area of expertise. Internship includes on site practice of skills and writing case reports and sharing the work with the assigned supervisor. This would provide the scholar an opportunity to apply the knowledge and expertise learned in the classrooms to the real world setting. This will enhance their understanding and will help them develop a perspective about psychological aspects of real world.

2. **Course Objectives:**

- a.
- b. To strengthen competence and professional attitude to work in real world setting.
- c. To enrich their experience by adequate exposure to the psychological issues presents in real life settings

**Learning Outcomes:**

- 3. The student will be;
  - a. Able to gain deeper understanding of the real world settings thus become more effective in their work
  - b. Able to bridge the gap of theory and practice relevant to their own specialty focus.
