National University of Sciences and Technology
School of Art, Design and Architecture

Course Title:	Basic Design I	**Course Code:**	**ID-101**
Credit Hours:	6(1-5)	**Semester:**	First-Fall
Instructor: **Email:** **Website:**			
Counseling Hours:			
Research Assistant: **Email:** **Website:**		**Office:** **Extension:**	

Pre-requisites: None

Course Description: *Course Objectives:*

- To develop a basic understanding of the elements and principles involved in design.
- To develop a sense of building relations within design elements through creative experimentation.
- Expanding the vocabulary of visual terminology.
- Recognize, analyze and apply the elements and principles of design.
- Understand the nature of the design process and apply methodical steps in their own projects.
- Enhance the ability to undertake basic analysis and respond to a straight-forward brief
- Understand the multidisciplinary nature of many design activities.
- Understand selected color theories
- Observe and employ occupational health and safety appropriate to studio practice.

Course Outcomes:

- Individual self-expression/critical thinking
- Develop capabilities to communicate research outcomes, design concepts and solutions
